

TO CLEAN, DEODORIZE AND DISINFECT

Wash basins, sinks, bathtubs, shower stalls, tile walls & floors, drinking fountains, tile, porcelain, stainless steel or monel metal equipment. Dilute with three parts of water. Scrub badly stained places with brush or mop. Rinse with fresh water and dry with clean cloth.

Toilet bowls. Remove water from the bowl by forcing it over the trap with a swab. Hold the bottle over the bowl and apply two to four ounces to the swab. Clean the entire bowl thoroughly, especially up under the rim of the water outlets, flush toilet and rinse out mop. Disinfect, pour two to four ounces directly into the water remaining in the clean bowl. Then swab the entire bowl and seat, and cover thoroughly with this solution. After disinfecting, rinse seat and bowl with clear water.

Urinals. Flush, then apply two to four ounces to swab, rub away stains and discolorations. Pour one to two ounces in trap, allow to stand a few minutes to remove dirt and scale, then flush.
