

DIRECTIONS USDA Reg. No. 7389-4

for efficient and economical use

AS A DISINFECTANT-CLEANER Dilute 2 oz. per gallon of water (1 to 64).

For Floors: Apply with a clean mop, sponge, cloth or sprayer. Agitate with brush or machine to loosen soil. Allow solution to remain in contact with surface for several minutes, then take up with a mop, sponge or vacuum pickup. If floor wax or finish is to be applied, rinse with clean cool water, otherwise rinsing is not needed.

For Walls, Tables, Counters, etc: Apply with clean cloth, sponge or sprayer, rub to loosen soil. Wipe off and let dry. No rinsing is needed.

AS A DEODORIZER For surfaces with mildew or mold. Dilute 3 1/2 oz. per gallon of water. For all other surfaces, dilute 1 to 2 oz. per gallon of water. Apply with cloth, sponge, sprayer or mop. On vertical surfaces start at the bottom and wash up, doing a small area at a time. **DEO-SAN** renders positive deodorization as a result of chemical action.

AS A SANITIZER Dilute 1 1/2 to 2 oz. per gallon of water. Apply and rub as needed to remove soil. Wipe off and let dry. No rinsing is needed.
