Cabbage, Broccoli, Brussels Sprouts, and Cauliflower: Flea beetles, harlequin bug, armyworm, cabbage caterpillars and corn earworm.

**Dogs and Cats:** Ticks and Fleas. Dust liberally over entire animal, avoiding eyes; rub thoroughly into skin. Comb out dead ticks a few hours after treatment. Repeat at weekly intervals if needed. Also, dust liberally in and around sleeping quarters, kennels and dog houses. Be sure to force dust into cracks and crevices. Repeat as necessary. Avoid treatment of kittens and puppies less than 4 weeks old.

**Lawn Insects:** Dust liberally using 1 lb. per 275 sq. ft. for control of ants, chinch bugs, earwigs, fall armyworm, fleas, leafhoppers, mosquitoes, sod webworms (lawn moths), millipedes. For best results mow lawn and apply after watering or rain. Repeat in 2-3 weeks if necessary.

Does not control spider mites but is compatible with all common miticides.

Harmful if swallowed or inhaled. Do not take internally. Avoid breathing dust. Avoid contact with skin. Wash thoroughly after handling. Change contaminated clothing daily. Avoid contamination of foodstuffs. Avoid contamination of feed, feeding troughs, and water ing. receptacles.

The product is highly toxic to bees exposed to direct treatment or residues on crops. Protective information may be obtained from your Cooperative Agricultural Extension Service.

#### ACTIVE INGREDIENTS

Curinary Naphthalene  
N-methylcarbamate

#### INERT INGREDIENTS

\*Trademark of American Cyanamid Corporation.  
\*Reg. U.S. Pat. & Tm. Off. No. 1001471  
USDA REG. NO. 709-136

## FOR THE CONTROL OF INSECT PESTS

#### Pre-harvest use Limitation

**NO LIMITATION** on Beans, Blueberries, Carrots, Cucumbers, Eggplants, Melons, Grapes, Peppers, Pumpkins, Squash, Tomatoes, and Okra.

**ALLOW 1 DAY** between dusting and harvest of: Cranberries and Strawberries.

**ALLOW 3 DAYS** between spraying and harvest of: Cabbage, Cauliflower, Brussels Sprouts, and Broccoli.

KEEP OUT OF REACH OF CHILDREN

#### How to use

Use sufficient dust to obtain full coverage. Apply when insects or their damage appear. Repeat at 7 to 10 day intervals or as necessary. Some plants and the insects controlled on them are:

**Grapes:** grape leaf folder, grape leafhopper and grape leaf skeletonizer, grape berry moth, Japanese beetle, June beetles and red banded leaf roller.

**Strawberries:** for control of meadow spittlebug, strawberry leaf roller and strawberry weevil.

**Blueberries:** blueberry maggot, cherry and cranberry fruitworms and Japanese beetles.

**Cranberries:** cut worms, fireworms, fruitworm, Japanese beetle and leafhoppers.

**Beans:** (Green, Lima, Snap beans, cowpeas and blackeyed peas) Mexican bean beetle, bean leaf beetle, cucumber beetles, flea beetles, Japanese beetle, leafhoppers, velvetbean caterpillar, and western bean cutworm, armyworms, corn earworm, stink bugs and tarnished plant bug.

**Cucumber, Melons, Pumpkin and Squash** pickleworm, rootworm, cucumber beetles, flea beetles, leafhoppers, and squash bugs. May cause some leaf injury due to prolonged high humidity. Do not use on watermelons, Florida.

**Tomato, Eggplant and Pepper:** Colorado potato beetle, flea beetles, and leafhoppers. European corn borer, fall armyworm, lace bugs, tomato hornworm, tomato hornworm, tobacco hornworm, and stink bugs.

**Okra:** armyworm, cutworm, and Japanese beetle. 7 day intervals.

**Carrots:** flea beetles, the queen, and the striped cucumber beetle, leafhoppers, caterpillars, and armyworms. Webworm, cutworm, armyworm, and the fall armyworm, stink bugs, and the tobacco hornworm.

---

## **FOR CONTROL OF CERTAIN VEGETABLE AND CERTAIN FRUIT INSECT PESTS**

\* Does not control spider mites but is compatible with all common miticides.
