

1. WHAT IS THIS PACKAGE FOR?

ferti-lome NUTGRASS & WEED KILLER was developed to aid people kill Nutgrass, Dallis Grass, Sandbur (Sandspur), Johnsongrass, Barnyardgrass and similar type weeds in ornamental beds, around shrubs and trees, sidewalks and other similar areas in Bermuda, Zoysia and Bluegrass lawns.

2. HOW DO YOU USE IT?

For best results apply when temperature is 80° F. and above. Remove protective cap. Insert free sprayer that comes with each container. Apply one or two squirts of spray to each Nutgrass or other undesirable weed. Thoroughly wet leaves of each plant. In 4-10 days plants begin to turn yellow and then die. Since several Nutgrass plants may emerge from buds on the crown of a single plant, weekly applications during the growing season may be necessary to clean up a spot infested with Nutgrass.

To kill clumps of Dallis Grass, Sandburs and other listed and similar weeds, apply several squirts to each clump thoroughly wetting leaves of each plant.

Do not apply to desirable vegetation. Do not apply to Nutgrass or other weeds in St. Augustine or centipede lawns. NOTE: Bermuda, Zoysia and Bluegrass may be temporarily browned, but will recover in 2-3 weeks.

3. HERE ARE THE RESULTS YOU MAY EXPECT!

ferti-lome NUTGRASS & WEED KILLER, used according to directions, will kill Nutgrass, Dallis Grass, Sandburs and other listed and similar weeds in Bermuda, Zoysia and Bluegrass lawns, in ornamental beds, around shrubs and trees, sidewalks and other similar areas.
