DIRECTIONS FOR USE

GENERAL CLASSIFICATION: It is a violation of Federal Law to use this product in a manner inconsistent with it's labeling.

1. WHAT IS THIS PACKAGE FOR?

This package of ferti-lome LAWN WEED KILLER GRANULES is an easy to use granular form for controlling broad leaf and vining type weeds. It can be used to control weeds in lawns, golf courses, and similar areas. The following is a partial list of weeds controlled:

- |                |  |                    |
|----------------|--|--------------------|
| Landelion      | Henbit                                     | Mouseear Chickweed |
| Clovers        | Oxalis                                     | Spotted Spurge     |
| Chicory        | Mustard                                    | Stitch Wort        |
| Docks          | Pennywort                                  | Wild Aster         |
| Dog Fennel     | Peppergrass                                | Wild Carrot        |
| English Daisy  | Pigweed                                    | Wild Garlic        |
| Frenchweed     | Plantain (Buckhorn,<br>Broadleaf, Rugel's) | Wild Onion         |
| Erect Knotweed | Poison Ivy                                 | Wild Radish        |
| Ground-Ivy     | Poison Oak                                 | Wood Sorrel        |
| Hawkweed       | Prostrate Knotweed                         | Yarrow             |
| Healall        | Purslane                                   | Puncturevine       |
| Lambquarter    | Ragweed                                    | Milkweed           |
| Mallow         | Sheep Sorrel                               | Bull Thistle       |
| Morning Glory  |  | Shepherd's Purse   |

**2. HOW DO YOU USE IT?**

Apply uniformly to area to be treated. For lawn and similar areas use spreader setting below as a guide. Apply at rate of 6 lbs. per 1000 Sq. Ft.

Spreader	Coverage	Spreader Setting*	
		Once over	Twice over
20" Deluxe	5000 Sq.Ft.	6	4
Cyclone	5000 Sq.Ft.	3	2

Best results are obtained by applying when weeds are wet from dew, sprinkling, or rain. Control is slower where material is watered into soil and absorbed into system through roots. However, it is effective when absorbed through roots. For St; Augustine grass apply one 30 lb. bag on 20,000 Sq. Ft. Repeat application in 10-14 days if necessary. Heavily infested lawns may require repeat application to kill missed weeds. Best results are obtained when weeds are young and actively growing. Application in early Spring and Fall when moisture and temperature make weeds grow rapidly is a good time to apply. Watering and fertilizing schedules should be maintained before and after application. Do not apply during periods of drought. Do not apply within the dripline of desirable trees and shrubs.

If lawn begins to brown temporarily, water heavily. Do not use on Centipede grass, Dichondra, nor on lawns or turf where desirable bentgrass or clovers are present. Do not use on newly seeded lawns or turf.

\*The settings for spreaders can only be taken as approximate. Our products have been thoroughly tested on new spreaders only. Age and condition of spreader, speed of pushing, roughness of lawn, all affect application. Operator should carefully observe rate of application at beginning of job and make corrective adjustments of spreader opening if necessary.

Application can be made on dry lawns or similar areas where weeds are to be controlled. When such an application is made, thorough watering should follow. Do not "puddle"

**3. HERE ARE THE RESULTS YOU MAY EXPECT!**  
ferti-lone LAWN WEED KILLER GRANULES used according to directions gives you economical and effective control of weeds in your lawn thus letting your lawn grasses grow vigorously to provide you with a beautiful weed free lawn.

Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewith.

**PRECAUTIONARY STATEMENTS  
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**CAUTION:** May be harmful or fatal if swallowed. Avoid contact with skin, eyes and clothing. When using this product, wear long-sleeved shirt, long pants, socks, shoes and chemical resistant gloves. After using this product, rinse gloves before removing, remove clothing and launder separately before reuse, and promptly and thoroughly wash hands and exposed skin with soap and water. Remove saturated clothing as soon as possible and shower. Do not allow people (other than applicator) or pets on treatment area during application. Do not enter treatment areas until spray has dried or dust has settled.

**STATEMENT OF PRACTICAL TREATMENT**

- IF SWALLOWED-** Call a physician or Poison Control Center immediately. if possible, vomiting should be induced under medical supervision. Drink one or two glasses of water and induce Vomiting by touching back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person.
- IF INHALED** - Remove victim to fresh air. Apply artificial respiration if indicated.
- IF ON SKIN** - Remove contaminated clothing and wash affected areas with soap and water.
- IF IN EYES** - Flush eyes with plenty of water. Call a physician immediately.

**ENVIRONMENTAL HAZARDS**

This product is toxic to aquatic invertebrates. Drifts or runoff may adversely affect aquatic invertebrates and nontarget plants. Do not apply directly to water or wetlands (swamps, bogs, marshes and potholes). Do not contaminate water when disposing of equipment washwaters. Most cases of groundwater contamination involving phenoxy herbicides such as 2,4-D have associated with mixing/loading and disposal sites. Caution should be exercised when handling 2,4-D pesticides at such sites to prevent contamination of groundwater supplies. Use of closed systems for mixing or transferring this pesticide will reduce the probability of spills. Placement of the mixing/loading equipment on an impervious pad to contain spills will help prevent groundwater contamination.

Buyer assumes all risks of use, storage or handling of this product not in strict accordance with directions given herewith.
