 UNDER THE FEDERAL INSECTICIDE
 FUNGICIDE AND MITICIDE ACT
 FOR ECONOMIC POISON REGISTER
 EPO UNDER NO. 7401-40

1. WHAT IS THIS PACKAGE FOR?

This package of ferti-lome BROAD SPECTRUM WEED KILLER is for control of weeds in lawns, golf courses, and similar turf areas. See side of container for a partial list of weeds controlled.

2. HOW DO YOU USE IT?

Mix 5 tablespoonfuls in 6 gallons of water. Apply thoroughly to 1000 sq. ft. (10 x 100). Heavily infested lawns may require repeat application to kill missed weeds. Best results are obtained when weeds are young and actively growing. Application in early Spring and Fall when moisture and temperature make weeds grow rapidly is a good time to spray. Watering and fertilizing schedules should be maintained before and after spraying. Do not apply during periods of drought. If hose end sprayer is used, follow manufacturer's directions for proper mixing. Course sprays are less likely to drift. Do not apply within the drip-line of desirable trees and shrubs.

For use in St. Augustine Grass mix 2 1/2 tablespoonfuls in 12 gals. of water. Apply thoroughly to 2000 sq. ft. of lawn area. Repeat application in 10-14 days if necessary.

3. HERE ARE THE RESULTS YOU MAY EXPECT!

ferti-lome BROAD SPECTRUM WEED KILLER used according to directions gives you economical and effective control of weeds in your lawn thus letting your lawn grasses grow vigorously to provide you with a beautiful weed free lawn.

CAUTION: Causes irritation of eyes and skin. Do not get in eyes. Harmful if swallowed or absorbed by skin. Do not allow contact with skin and clothing. In case of contact, flush eyes with plenty of water for at least 15 minutes and get medical attention. Wash exposed skin with plenty of soap and water. Direct spray at undesirable plants. Do not use the same spray equipment for applying other material to plants, as injury will result. Do not store near fertilizer, seeds, insecticides or fungicides. Avoid contamination of irrigation ditches and water used for domestic purposes. If lawn begins to brown temporarily, water heavily. Do not use on Centipede grass, Dichondra, nor on lawns or turf where desirable Bent grass or Clovers are present. Do not use on newly seeded lawns or turf. When container is empty, immediately wash thoroughly and destroy. Never re-use.

Avoid spray drift to susceptible plants, as this product may injure cotton, beans, peas, grapes or ornamentals, etc.

NON-WARRANTY: Follow directions carefully. Timing and method of application, weather and crop conditions in mixes with other chemicals not specifically recommended, and other influencing factors in the use of this product are beyond the control of the seller. Buyer assumes all risks of use, storage or handling of this material in strict accordance with directions given herewith.
