

1. WHAT IS THIS PACKAGE FOR?

This package of ferti-lome OIL SPRAY AEROSOL is very effective in controlling scale on ornamentals, shrubs, fruit trees and shade trees.

2. HOW DO YOU USE IT?

Shake well before using. Hold container 18 to 25 inches from plants. Keep finger tip out of spray. Spray about 1 foot of plant per second in a sweeping motion or in short spurts at intervals.

ORNAMENTALS: Spray upper sides and undersides of leaves and branches until wet with spray. Repeat the application at 14 to 21 day intervals until scale is controlled.

ferti-lome OIL SPRAY AEROSOL may cause plant injury to house plants such as ivy, ferns, and the like. Do not spray in mid-day with the spray if temperature is above 95° F. Spray in late after-

FRUIT & OTHER TREES: To control San Jose scale on peaches, plums, pears, apples and other trees; obscure scale on pecans; spray trees thoroughly. Trunks, branches, twigs and both leaf surfaces are wet with the spray. Repeat in 3 to 4 weeks if necessary.

3. HERE ARE THE RESULTS YOU MAY EXPECT!

ferti-lome OIL SPRAY AEROSOL, when used according to directions, is an effective and economical way to control scale on ornamentals, shrubs, and shade trees, such as tea scale on camellias, scale on clematis, juniper scale on junipers, azalea scale on azaleas, white peach scale on apricot, scale on citrus trees, rose scale on roses, magnolia scale on magnolias, and other scales on enduring plants.

WARNING — FLAMMABLE: Do not store or use near heat or open flame.

CAUTION: Keep out of reach of children. Harmful if swallowed. Avoid contact with skin and eyes.

Contents under pressure. Do not puncture. Exposure to high temperatures may cause bursting. Keep at room temperature — away from direct sunlight, radiators, stoves, hot water or other heat. Never throw container into fire or incinerator.

Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewith.

1. WHAT IS THIS PACKAGE FOR?

ferti-lome UNIVERSAL BRAND SPRAY is a combination spray. The systemic part of the spray is absorbed into the plant killing sap sucking insects, while the leaf-feeding insects are killed by the general contact and residual insecticide in the spray.

INSECTS THIS PRODUCT KILLS:

Aphias	Japanese beetles	Leafhoppers
Thrips	Blister beetles	Cankerworms
Rose Slugs	Cucumber beetles	Holly leaf miners
Rose Chater	Flea beetles	Birch leaf miners
Whiteflies	Mites	Tent caterpillars

2. HOW TO USE IT

Mix 2 tablespoons (1 fl. oz.) of ferti-lome UNIVERSAL BRAND SPRAY in 1 gallon of water. Spray ROSES, SHRUBS, ORNAMENTALS, FLOWERS AND TREES with diluted mixture to the point of run off. Make first application when insects first appear. Repeat application at 10-14 day intervals as necessary to maintain control.

This product may be used in all types of sprayers. If a hose-end sprayer is used, follow the recommendations of the manufacturer for that particular hose end sprayer, so that the diluted spray will contain 2 tablespoons ferti-lome UNIVERSAL BRAND SPRAY per gallon of finished spray.

HOW TO USE IT TO CONTROL MITE INFESTATION

ferti-lome UNIVERSAL BRAND SPRAY, used according to directions makes it possible to put an insecticide inside your plants for killing sap-sucking insects, while at the same time depositing a general contact and residual insecticide on the leaves, stems, etc., for controlling leaf-feeding insects. This aids in producing more beautiful roses, flowers, shrubs and trees.

WARNING: MAY BE FATAL IF SWALLOWED, INHALED OR ABSORBED THROUGH THE SKIN. Do not take intern-

ally. Do not breathe fumes or spray mist. Avoid contact with skin, eyes and clothing. Wash hands, face and arms thoroughly with soap and warm water before eating or smoking. Wash contaminated clothing with soap and hot water before reuse.

Keep children and pets away from treated areas until spray deposit has dried in treated areas. Do not handle treated plants until thoroughly dry.

Do not contaminate feed or foodstuffs. Do not apply to food or storage crops.

Do not reuse containers for **any** purpose. Destroy empty container.

If poisoning occurs, obtain prompt medical aid.

TO PHYSICIAN: Atropine sulfate is antidotal. The administration of 2 PAM may also be beneficial in case of poisoning.

This product is toxic to fish and wildlife. Keep out of any body of water. Birds feeding on treated areas may be killed.

WARNING — FLAMMABLE. Do not use or store near open flame.

NON-WARRANTY: Follow directions carefully. Timing and method of application, weather and crop conditions, mixtures with other chemicals not specifically recommended, and other influencing factors in the use of this product are beyond the control of the factors in the use of this product are beyond the control of the seller. Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given here-in.
