SO UNDER NO. 7401-71

1. WHAT IS THIS PACKAGE FOR?

This product was developed in order to make undesirable clover, weed and winter grass control easier. It contains a non-hormone type contact weed killer that gives quick long-lasting control.

2. HOW DO YOU USE IT?

To kill BUR CLOVER, TRUE CLOVER, BLACK MEDIC, ANNUAL BLUE GRASS, RESCUE, RYE, CHEATED GRASSES AND LITTLE BARLEY, HENBIT, DICHONDRA, GOATHEAD, LESPEDEZA, MALLOW OXALIS AND VETCH mix 4 tablespoons in 1 gallon of water and spray on 200 sq. ft.

For best results spray as a fine mist about a week after mowing when clover and weeds are young and in active growth. If weeds are tall and mature mow closely and spray after 3-4 days. Hard to kill weeds may require repeated application. NOTE: When used according to directions, this product will not kill St. Augustine and Bermuda grass, however, a slight, temporary yellowing may occur. Spray when air is calm to prevent damaging spray drift onto desirable vegetation such as flowers and shrubs.

3. HERE ARE THE RESULTS YOU MAY EXPECT!

This new product, when used according to directions, will aid you in ending your lawn "pest" weed problems.

CAUTION: This product is not recommended for use on newly seeded turf, bent grass, putting greens and on closely cut irrigated lawns and fairways. Do not apply to grass underlain with roots of desirable vegetation not intended to be killed. Do not use on rye grass, bluegrass or zoysia lawns.

Rinse empty container thoroughly with water and discard it.

WARNING: MAY BE FATAL IF SWALLOWED, IRRITATING TO SKIN, NOSE, EYES, AND THROAT. AVOID BREATHING SPRAY MIST. Do not get in eyes, on skin or on clothing. In case of contact, immediately flush skin or eyes with plenty of water for at least 15 minutes; for eyes, get medical attention. If swallowed, give cold milk or cold water. Call a doctor immediately.

NON WARRANTY: Follow directions carefully. Timing and method of application, weather and crop conditions, mixtures with other chemicals not specifically recommended, and other influencing factors in the use of this product are beyond the control of the seller. Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewith.

1. WHAT IS THIS PACKAGE FOR?

This product was developed in order to make undesirable clover, weed and winter grass control easier. It contains a non-hormone type contact weed killer that gives quick, long lasting control.

2. HOW DO YOU USE IT?

To kill BUR CLOVER, TRUE CLOVER, BLACK MEDIC, ANNUAL BLUE GRASS, RESCUE, RYE, CHEATED GRASSES AND LITTLE BARLEY, HEN BIT, DICHONDRA, GOATHEAD, LESPEDEZA, MALLOW, OXALIS AND VETCH mix 4 tablespoons in 1 gallon of water and spray on 200 sq. ft.

For best results spray as a fine mist after a weed after mowing when cover and weeds are young and in active growth. If weeds are tall and mature mow closely and spray after 3-4 days. Hard to kill weeds may require repeated application. NOTE: When used according to the label, this product will not kill St. Augustine and Bermuda grass. However, it might temporarily yellow them. Spray when you cannot prevent damaging sprays to desirable vegetation. Do not spray on sidewalks.

3. HERE ARE THE RESULTS YOU MAY EXPECT!

This new product when used according to the label will aid you in controlling weeds on your lawn.

CAUTION: This product is not recommended for use on newly seeded turf, bent grass, putting greens and on closely cut irrigated lawns and fairways. Do not apply to grass underlaid with roots of desirable vegetation not intended to be killed. Do not use on ryegrass, bluegrass or zoysia lawns.

Rinse empty container thoroughly with water and discard it.

WARNING: MAY BE FATAL IF SWALLOWED. IRRITATING TO SKIN, NOSE, EYES AND THROAT. AVOID BREATHING SPRAY MIST. Do not get on face, neck or on clothing. In case of contact immediately flush skin or eyes with plenty of water for at least 15 minutes. Get medical attention. If swallowed get medical attention immediately. Call a doctor immediately.

NON WARRANTY: Fertilome does not warrant this product for use on any other type of crop or conditions. Mixtures with other chemicals may not give the same results and may injure or kill plants in the area of use. Fertilome does not control or prevent the spread of insects, diseases, or other pests. Use, storage or handling of this material in a structure or place with flammable gas or liquid.
