

1. WHAT IS THIS PACKAGE FOR?

This product was developed in order to make undesirable clover, weed and wild grass control easier. It contains a non-hormone type contact weed killer that gives quick long-lasting control.

2. HOW DO YOU USE IT?

To kill BUR CLOVER, TRUE CLOVER, BLACK MEDIC, ANNUAL BLUE GRASS, RESCUE, RYE, CHEATED GRASSES and LITTLE BARLEY, HENBIT, DICHONDRA, GOAT-HEAD, LESPEDEZA, MALLOW OXALIS and VETCH mix 4 tablespoons in 1 gallon of water and spray on 200 sq. ft.

For best results spray as a fine mist about a week after mowing when clover and weeds are young and in active growth. If weeds are tall and mature mow closely and spray after 3-4 days. Hard to kill weeds may require repeated application. NOTE: When used according to directions, this product will not kill St. Augustine and Bermuda grass, however, a slight, temporary yellowing may occur. Spray when air is calm to prevent damaging spray drift on to desirable vegetation such as flowers and shrubs.

3. HERE ARE THE RESULTS YOU MAY EXPECT!

This new product, when used according to directions, will aid you in ending your lawn "pest" weed problems.

CAUTION: This product is not recommended for use on newly seeded turf, bent grass, putting greens and

on closely cut irrigated lawns and fairways. Do not apply to grass underlaid with roots of desirable vegetation not intended to be killed. Do not use on rye grass, bluegrass or zoysia lawns.

Rinse empty container thoroughly with water and discard it.

WARNING: MAY BE FATAL IF SWALLOWED. IRRITATING TO SKIN, NOSE, EYES, and THROAT. AVOID BREATHING SPRAY MIST. Do not get in eyes, on skin or on clothing. In case of contact, immediately flush skin or eyes with plenty of water for at least 15 minutes; for eyes, get medical attention. If swallowed, give cold milk or cold water. Call a doctor immediately.

NON-WARRANTY: Follow directions carefully. Timing and method of application, weather and crop conditions, mixtures with other chemicals not specifically recommended, and other influencing factors in the use of this product are beyond the control of the seller. Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewith.

*Endothall U.S. Pat. Nos. 2,550,494; 2,576,080; 2,576,083.
