

1. WHAT IS THIS PACKAGE FOR?

This new product was especially formulated to kill poison ivy, poison sumac and poison oak around trees and shrubs, fence rows, patios, in lawns and other similar areas.

2. HOW DO YOU USE IT?

To kill Poison Ivy, Poison Sumac and Poison Oak:

Apply undiluted using applicator that comes with each container. Treatment should be applied to individual plants. Wet foliage thoroughly. For best results apply during periods of high humidity. Re-treatment may be necessary if regrowth occurs. NOTE: Do not apply to desirable plants since this material is non-selective and toxic to most vegetation.

3. HERE ARE THE RESULTS YOU MAY EXPECT!

This formulation, used according to directions, will kill poison ivy, poison sumac and poison oak in your outdoor living areas.

CAUTION: Keep out of reach of children. May be harmful if swallowed. Avoid skin contact with strong solution of this material. In case of contact, wash off with plenty of water.

Do not allow solution to contact desirable vegetation. Do not drain or flush equipment on desirable vegetation.

Do not reuse container for any purpose. Destroy empty container.

Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewith.
