

1. WHAT IS THIS PACKAGE FOR?

This product, developed with the rosarian in mind, is a combination of systemic and contact insecticides designed to be absorbed into plants to kill sap sucking insects and deposited on plants to kill leaf chewing insects.

INSECTS THIS PRODUCT KILLS:

Rose Slugs	Whiteflies	Leafhoppers
Rose Chafer	Japanese Beetles	Cankerworms
Aphids	Blister Beetles	Holly Leaf Miners
Thrips	Cucumber Beetles	Birch Leaf Miners
Mites	Flea Beetles	Tent Caterpillars

2. HOW DO YOU USE IT?

Mix 2 tablespoons (1 fl. oz.) in 1 gallon of water. Spray roses with diluted mixture to the point of run off. Make first application when insects first appear. Repeat application at 10-14 day intervals as necessary to maintain control. This product may be used in all types of sprayers. If a hose-end sprayer is used, follow the recommendations of the manufacturer of that particular hose-end sprayer, so that the diluted spray will contain 2 tablespoons ferti-lome LIQUID SYSTEMIC ROSE SPRAY per gallon of finished spray.

3. HERE ARE THE RESULTS YOU MAY EXPECT!

This product, when used as directed, will kill listed insects on your roses thus aiding in producing more beautiful and abundant blooms.

WARNING MAY BE FATAL IF SWALLOWED, INHALED OR ABSORBED THROUGH THE SKIN. Do not take internally. Do not breathe fumes or spray mist. Avoid contact with skin, eyes and clothing. Wash hands, face and arms thoroughly with soap and warm water before eating or smoking. Wash contaminated clothing with soap and hot water before reuse.

Keep children and pets away from treated areas until spray deposit has dried on treated areas. Do not handle treated plants until thoroughly dry.

Do not contaminate feed or foodstuffs. Do not apply to food or forage crops.

Do not reuse containers for any purpose. Destroy empty container.

Food utensils such as teaspoon or measuring cup should not be used for food purposes after use with insecticide. If poisoning occurs, obtain prompt medical aid.

TO PHYSICIAN: Atropine sulfate is antidotal. The administration of 2-PAM may also be beneficial in case of poisoning.

This product is toxic to fish and wildlife. Keep out of any body of water. Birds feeding on treated areas may be killed. Keep out of any body of water. Do not contaminate water by cleaning of equipment, or disposal of waste.

DO NOT USE, POUR, SPILL OR STORE NEAR HEAT OR OPEN FLAME.

NON-WARRANTY: Follow directions carefully. Timing and method of application, weather and crop conditions, mixtures with other chemicals not specifically recommended, and other influencing factors in the use of this product are beyond the control of the seller. Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewith.
