

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS & DOMESTIC ANIMALS**

WARNING

Causes severe eye irritation. Harmful if swallowed or absorbed through skin. Do not get in eyes or on clothing. Avoid contact with skin. Wash thoroughly after handling. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARD

Keep out of lakes, streams and ponds. Do not apply when weather conditions favor drift from target area.

**DIRECTIONS FOR USE
GENERAL CLASSIFICATION**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

STORAGE & DISPOSAL

Do not reuse empty container. Wrap container and put in trash collection.

Do not apply to areas likely to be grazed by domestic animals.

1. WHAT IS THIS PACKAGE FOR?

This new product has been especially formulated to make it easy to kill vegetation in areas where it is undesirable. It may be used on brick walks, patios, parking areas, along fences, curbs and gutters around buildings and along graveled pathways. It is excellent for use on driveways and to kill vegetation prior to topping with asphalt or paving to prevent growth through finished paving.

2. HOW DO YOU USE IT?

TO KILL VEGETATION AND PREVENT PLANT REGROWTH: Mix 1 quart in 1 gallon of water. Using a sprinkler can or power sprayer

apply to 67 sq. ft. For best results apply to bare ground or where growth is just starting. Weeds that are more than 4 to 6 inches should be cut down before application or a second application may be necessary. Where ground has been properly treated ferti-lome Special VEGETATION KILLER has prevented growth for up to one year to most vegetation except previously established deep-rooted perennials such as Wild Morning Glory, Bermuda Grass and Johnson Grass. A second application may be necessary to control deep-rooted perennial weeds. In areas of heavy rainfall (60 inches and up), it may be necessary to repeat application every 6 to 8 months to maintain effective control.

TO KILL VEGETATION PRIOR TO PAVING: (Such as driveways, parking lots, tennis courts and similar areas.) Mix 3 quarts of ferti-lome Special VEGETATION KILLER in 2 quarts of water and apply to 100 sq. ft. Treat after area to be paved has been leveled, compacted and graded. Apply uniformly and allow to dry thoroughly before topping is applied.

3. HERE ARE THE RESULTS YOU MAY EXPECT!

When used according to directions this new product will kill vegetation for up to one year. You will find it easy and economical to use.

PRECAUTION: This product is a non-selective weed killer and is toxic to most vegetation. Apply to area where plants are to be killed or to area to be rendered totally or partially unproductive for one or more years. Avoid contact with lawns, perennials and other desirable plants. Do not apply over underlying roots of any desirable vegetation such as trees, shrubs and vines. Do not treat areas where run-off may injure desirable vegetation.

Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewith.
