DIRECTIONS:

Dear Folks

Ferti-Lome Crabgrass Preventer Plus Lawn Food is a pre-emergent product designed to control crabgrass, foxtail and barnyardgrass seedlings and to provide your lawn with the nutrients it needs to grow.

1. WHO IS THIS PACKAGE FOR?

This package of Ferti-Lome Crabgrass Preventer Plus Lawn Food is for use on lawns. You may seed immediately following application.

2. HOW DO YOU USE IT?

Apply Ferti-Lome Crabgrass Preventer Plus Lawn Food to your lawn for best crabgrass control. Apply to your lawn before crabgrass germinates. Application should be made at the first sign of crabgrass.

May be used on bermudagrass, fescue, ryegrass, and other cool-season grasses. Do not use on warm-season grasses such as St. Augustine, Centipede, and Bahia. Do not use on other grasses such as Zoysia, Paspalum, or Miscanthus. Do not use on lawns that have been treated with a herbicide.

SPREADER	ONE BAG COVERS 5,000 Sq Ft	SPREADER SETTING
Ferti-Lome		7
Ferti-Lome D-100		5 1/2
Common Sense Spreader		5 1/2
Hand Broadcast		6

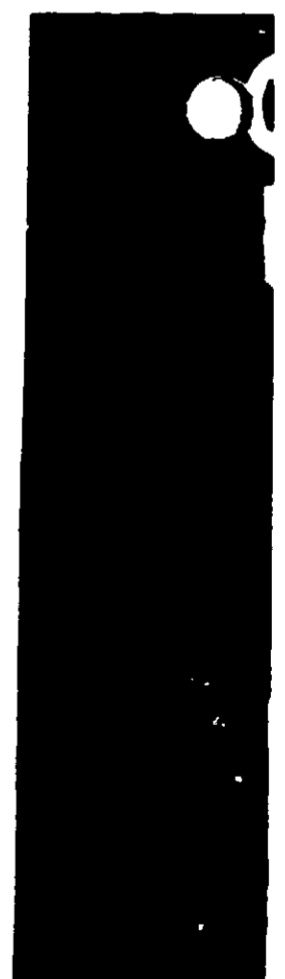

*These settings can be used only as a guide. They are not absolute. The speed at which the applicator moves, spreader condition and the texture of the soil will alter rate of application.

NOTICE
Ferti-Lome Crabgrass Preventer Plus Lawn Food is a pre-emergent product. In order to control crabgrass, foxtail and barnyardgrass seedlings, applications must be made prior to time the seed starts germinating.

3. HERE ARE THE RESULTS YOU MAY EXPECT!

You may expect crabgrass free, deep green lawn areas with the use of this product. See early results in the Ferti-Lome people's magazine.

Be sure to read all risks of use, storage or handling of this material not in strict accordance with directions given hereon.
