

1. WHAT IS THIS PACKAGE FOR?

ferti-lome ROOT STIMULATOR & PLANT STARTER SOLUTION stimulates early root formation, stronger root development, reduces transplanting shock and promotes greener, more vigorous plants.

2. HOW DO YOU USE IT?

(SHAKE WELL BEFORE USE OR SAMPLING): This product is concentrated and must be diluted with water according to the following table before use.

- 3 1/2 Tablespoons per gallon of water
- 1 Pint in 9 1/2 gallons of water
- 1 Quart in 19 gallons of water
- 1 Gallon in 76 gallons of water

FLOWERS, SHRUBS, TREES:

Use from 1-8 pints of diluted ferti-lome ROOT STIMULATOR & PLANT STARTER SOLUTION per plant depending on size. For example: 1 pint of the mixture on mums, geraniums and other annual flowers. For Rose bushes and Camellias, use 3 pints per plant. For larger than 4 foot plants (trees and large shrubs), use 1 gallon of the mixture per plant.

Pour diluted solution over the soil as the roots are being covered, making sure that the roots are wet with the solution. Wet soil around plants with water after planting.

HOUSE PLANTS:

Use 1/2 teacup diluted solution per quart of soil (a 6 in. pot holds approximately 1 quart).

NOTE: Solution is a root stimulator and should not be applied to plant's foliage as a fertilizer or plant food.

3. HERE ARE THE RESULTS YOU MAY EXPECT!

This product helps plants become established quickly and helps insure vigorous growth.
