 PURCHASING GROUPS, INC.

1. WHAT IS THIS PACKAGE FOR?
 This product is a special formulation for controlling certain insects and mites in your vegetable garden.

2. HOW DO YOU USE IT?
 Mix 2 teaspoons in 1 gallon of water. Using sprayer, apply to 100 sq. ft. of garden area. Assure thorough coverage of upper and lower leaf surfaces. Repeat as necessary. Do not apply within indicated number of days of harvest.

CROP	INSECTS	REMARKS
Bean Beans, Snap Beans and Lima Beans	Black Bean Aphids, Mexican Bean Beetles, Leaf Miners, Cucumber Beetles	Do not apply within 7 days of harvest or grazing
Peas	Aphids, Leaf Miners, Bean Weevils	
Broccoli, Cabbage, Cauliflower, Brussels Sprouts	Aphids, Diamond-back Moths, Imported Cabbage-worms, Flea Beetle	Do not apply within 14 days of harvest. Generally, applications at 7-10 day intervals are required.
Collards, Kale, Turnip Tops	Aphids, Imported Cabbage-worms, Diamond-back Moths, Imported Cabbage-worms, Corn Earworms	Do not apply within 14 days of harvest on collards, kale, turnip tops and carrots or within 7 days of harvest on Cucumbers.
Carrots	Aphids, Leafhoppers	
Cucumbers	Aphids, Cucumber Beetles, Serpentine Leaf Miners, Thrips	
Lettuce, Spinach, Beets, Endive	Aphids, Distant Leaf Miners, Leafhoppers	Do not apply within 14 days of harvest on lettuce, spinach, beets, endive, radishes, parsnips or turnips.
Radishes, Parsnips, Turnips	Aphids, Flea Beetles, Distant Leaf Miners, Leafhoppers	
Tomatoes	Aphids, Distant Leaf Miners, Fall Armyworms; Flea, Blister, Japanese, Colorado Potato and Banded Cucumber Beetles; Tomato Fruit Worms; Tomato Worms; Southern and Fall Armyworms.	Do not apply within 1 day of harvest. For aphids and leaf miners applications at weekly intervals are usually necessary.

CROP	INSECTS	REMARKS
Potatoes	Aphids; Banded Cucumber, Blister, Flea, and Colorado Potato Beetles; Distant Leaf Miners; Leafhoppers; Southern Armyworms	Do not apply within 35 days of harvest.
Corn	Fall Armyworms; Flea and Japanese Beetles; Grasshoppers; Leafhoppers; Corn Earworm	Do not apply within 7 days of harvest. For corn earworm, apply to silks as soon as they appear. Make 3-4 applications at 2-3 day intervals as infestation warrants. Re-apply immediately after a rain.
Cantaloupes, Muskmelons, Watermelons, Summer and Winter Squash	Aphids, Cucumber Beetles, Leafhoppers, Mites, Serpentine Leaf Miners, Thrips	Do not apply to melons and winter squash within 3 days of harvest, or summer squash within 10 days of harvest.

3. HERE ARE THE RESULTS YOU MAY EXPECT!
 Effective control of listed insects and mites in your home vegetable garden.

CAUTION: May be harmful if swallowed or absorbed through the skin. Avoid breathing spray mist. Avoid contact with skin, eyes and clothing. Wash thoroughly after handling. Avoid contamination of feed and foodstuffs. Do not use on household pets or humans. Do not permit children or household pets to go onto sprayed grass or come in contact with foliage until spray has completely dried.

DO NOT USE, POUR, SPILL OR STORE NEAR HEAT OR OPEN FLAME.

ENVIRONMENTAL CAUTIONS: This product is toxic to fish and wildlife. Birds feeding on treated area may be killed. Keep out of any body of water. Do not apply where run-off is likely to occur. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water by cleaning of equipment, or disposal of waste. Apply this product only as specified on this label.

This product is highly toxic to bees exposed to direct treatment or residues on crops. Protective information may be obtained from your Cooperative Agricultural Extension Service.

Do not reuse container for any purpose. Destroy empty container. Food utensils such as a teaspoon or measuring cup should not be used for food purposes after use with insecticides.

Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewith.
