

MAY 24 1990

Mr. Raymond H. Smith  
Voluntary Purchasing Group, Inc.  
P. O. Box 460  
Donham, TX 75418

Dear Mr. Smith:

Subject: Revised labeling in response to formaldehyde  
Registration Standard  
Ferti-Lone Home Garden Bug Bait  
EPA Registration No. 7401-265  
Your submission of December 12, 1989

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable provided that you make the labeling changes given below before you release the product for shipment bearing the proposed labeling.

1. Add the following precautionary statement:

"Hazard To Human and Domestic  
Animals"

2. Delete the word "Caution" from the environmental hazard heading and revise the heading to:

"ENVIRONMENTAL HAZARD"

3. Add the following misuse statement:

"It is a violation of Federal Law to use this product in a manner inconsistent with it's labeling." This statement must appear under the heading Directions For Use and preceding the directions.

4. Add a statement of practical treatment using the following format:

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED \_\_\_\_\_  
IF INHALED \_\_\_\_\_  
IF IN EYES \_\_\_\_\_  
IF ON SKIN \_\_\_\_\_

Submit five (5) copies of your final printed labeling before you release the product for shipment.

A stamped copy of the labeling is enclosed for your records.

Sincerely yours,

Dennis B. Edwards, Jr.

pets, if eaten. Keep children and pets out of treated area.

KEEP OUT OF REACH OF CHILDREN (12 POINT)

WARNING (18 POINT)

SEE BACK PANEL FOR ADDITIONAL WARNINGS

(pms  
200)

### 1. WHAT IS THIS PACKAGE FOR?

This formulation gives you an effective and economical means of killing snails, slugs, pillbugs, (sowbugs), earwigs, ants and cutworms in your shrub and flower beds, vegetable garden, around building foundations, patio stones and sidewalks.

### 2. HOW DO YOU USE IT?

Shrub and Flower Beds, Around Buildings, Patios and Sidewalks: Apply bait to soil around plants but not directly on stems, trunks or foliage. Sprinkle bait lightly on ground in areas to be treated, preferably in late evening because these pests are mostly late evening and night feeders. Also apply bait where pests hide during the day. Do not apply in piles. Make application in early spring and repeat as necessary to maintain control. For best results areas to be treated should be damp; if necessary water prior to application of bait.

Snails and slugs migrate extensively! Migration from infested areas may be prevented by baiting a barrier from the adjacent infested areas.

VEGETABLES: To kill Armyworms, Cutworms, Grasshoppers, Crickets, Darkling ground Beetles and Pillbugs (Sowbug) apply  $\frac{1}{2}$  lb. to 220 sq. ft. of garden area using same directions as above. Do not apply to edible parts. Carefully follow day between final application and harvest as listed in chart below.

Subsequent planting of food and feed crops in treated soil must be made with crops on this and other carbaryl labels.

CROP	DAYS BETWEEN FINAL APPLICATION & HARVEST
Tomatoes, Peppers, Potatoes, Corn, Eggplant, Carrots, Beans, Okra.	0
Broccoli, Brussels Sprouts, Cabbage, Cauliflower, Lettuce, Beets, (roots), Parsnips, Rutabaga, Turnips (roots), Radishes, Horseradish.	3
Collards, Endive, Kale, Spinach, Swiss chard.	14
Strawberries	6

### 3. HERE ARE THE RESULTS YOU MAY EXPECT?

Protection from listed, damaging bugs in Home Gardens...Control of snails and slugs; removes the unsightly slime trail left by these pests.

WARNING: Keep out of reach of children. May be fatal if swallowed. Avoid breathing of dust. Avoid contact with skin, eyes and clothing. Wear regular long-sleeved work clothing. Change to clean clothing daily. Wash hands and face before eating. Wash thoroughly after handling. Do not store near or contaminate feed or foodstuffs. Keep children and pets off treated areas. Protect dogs from treated areas, since they may be attracted to this product when applied.

ENVIRONMENTAL HAZARDS: This product is toxic to birds and wildlife. Birds feeding on treated areas may be killed. Do not apply directly to water or wetlands (swamps, bogs, marshes, and potholes). Do not contaminate water when disposing of equipment washwaters.

This pesticide may be fatal to dogs or other pets if eaten.

Keep pets out of treated area.

STORAGE: Store in original container and place in a locked storage area.

DISPOSAL: Do not reuse container. Rinse thoroughly before discarding in trash.

Securely wrap original container in several layers of newspaper and discard in trash.

Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewith.
