

### 1. WHAT IS THIS PACKAGE FOR?

This special systemic insecticide formulation is for controlling the hard-to-kill scale insects and certain other listed insects which may be found in damaging quantities on ornamentals.

### 2. HOW DO YOU USE IT?

To kill Rose Scale; Tea Scale; Azalea Scale; Euonymus Scale; Juniper Scale; White Peach Scale; Magnolia Scale; Boxwood Scale; Leafhoppers; Thrips; Mealy Bugs; Birch and Holly Leaf Miners on Roses, Shrubs, Shade Trees and similar plants, mix 5 tablespoons in 1 gallon of water (or 1 pint in 6 1/4 gallons of water for larger jobs). Apply as a full coverage spray when insects or their damage first appear. Repeat as necessary. Do not apply to mums or Easter lillies.

### 3. HERE ARE THE RESULTS YOU MAY EXPECT!

Easy, fast, economical scale insect control through contact and systemic action for your ornamentals and shade trees.

**WARNING:** May be fatal if swallowed, inhaled or absorbed through the skin. Do not breathe fumes or spray mist. Do not get in eyes on skin, or on clothing. Wash thoroughly with soap and warm water after handling. Wash clothing with soap and hot water before reuse.

Keep children and pets away from treated areas until spray deposit has dried on treated areas. Do not handle treated plants until thoroughly

dry. Do not contaminate feed or foodstuffs.

**Environmental Caution:** This product is toxic to fish and wildlife. Birds feeding on treated area may be killed. Keep out of any body of water. Do not contaminate water by cleaning of equipment, or disposal of waste. Do not apply where runoff is likely to occur. Do not apply when weather conditions favor drift from areas treated. Apply this product only as specified on this label.

This product is toxic to bees and should not be applied when bees are actively visiting the area.

Do not use on plants used for food or forage. Food utensils such as tablespoons and measuring cups should not be used for food purposes after use with pesticides. Do not reuse container for **any** purpose. Destroy empty container. If poisoning occurs, obtain prompt medical aid.

**NOTE TO PHYSICIAN:** Atropine sulfate is antidotal. 2-PAM is also antidotal and may be administered in conjunction with atropine.

Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewith.
