**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS & DOMESTIC ANIMALS
CAUTION**

Harmful if swallowed. Avoid contact with skin, eyes or clothing. Avoid breathing spray mist. Wash hands after using. Keep children and domestic animals off treated areas until this material has been washed into the soil. Avoid contamination of feed and feedstuffs. Do not contaminate water.

ACCEPTED

NOV 16 1979

Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, for the pesticide registered under EPA Reg. No. 7401-299

An easier way to control undesirable grasses and weeds in lawns, and to trim along the edge of sidewalks, patios, driveways, curbs, fences, buildings, vacant lots, alleyways, gravel driveways, flower bed borders, and around trees and shrubs. ferti-lome Improved PERMA-TRIM is a non-selective ready to use herbicide that top kills weeds and grasses on contact. Its phytotoxic properties are quickly inactivated on contact with soil.

2. HOW DO YOU USE IT?

ferti-lome Improved PERMA-TRIM is ready to use — no mixing required. Shake well before use. Remove protective cap from jug. Screw applicator head on jug, being certain applicator head is screwed firmly on jug. Invert jug. Thoroughly wet foliage and stems of undesired vegetation. The width of the spray pattern may be adjusted by either raising or lowering the jug. Application may be made any time you want to control undesirable growth of grass or weeds, but best results are obtained during warm sunny weather. Heavy lawn grass and difficult to control perennial weeds such as Bermudagrass and Dallisgrass will require more than one application to

give complete control of top growth. To avoid drift to desirable plant foliage, apply only when air is calm. Make sure that spray does not contact the leaves, green bark, bud crowns or broken bark on trees and ornamentals. Do not track from treated areas to untreated areas.

TRIMMING & EDGING around lawns, fences, sidewalks, curbs, trees, shrubs and other similar areas can be done by walking slowly holding jug 2"-6" above grass or weeds to be killed.

be made by applying ferti-lome Improved Dallisgrass, clover, plantains and other similar treatments apply only to undesirable plants, do area.

vacant lots, gravel walks and other unconfined holding jug at waist height and walking slowly undesirable plants are thoroughly covered with spray. to avoid contact with skin or clothing. Apply 1

WHAT YOU MAY EXPECT

A-TRIM used according to directions will control the undesirable grasses and weeds and make trimming and edging in the yard easier. Under warm sunny conditions wilting will occur in 1 to 3 days and complete browning in 5 to 7 days.

STORAGE AND DISPOSAL

Do not store near feed, foodstuffs, fertilizers, seeds, insecticides or fungicides. Do not reuse empty container. Wrap container and put in trash collection.

NOTICE: Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewith.
