Carrollton, TX 75010-4509

Dear Ms. Jackson:

Subject: Ferti-lome Quik-Kill Home and Garden Insect Spray
EPA Reg. No. 7401-319
Submission dated 6/25/02

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable subject to the comments listed below. One copy of the finished labeling must be submitted prior to releasing the product for shipment.

Revise last sentence of the directions for use on dogs and cats as follows:
Consult a veterinarian before using this product on debilitated, aged, medicated, pregnant or nursing animals.

Move the statement "use only on dogs and cats" to the section in the directions for use on dogs and cats.

If you have questions, please call Ann Sibold at 703 305-6502.

Sincerely,

for Ann Sibold
Joseph Tavano

[BACK/SIDE LABEL PANEL]**DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

**READ ENTIRE LABEL BEFORE EACH USE
USE ONLY ON DOGS & CATS**

1. WHAT IS THIS PACKAGE FOR?

This product is effective in killing annoying and destructive insects in the home and garden. For fast acting results, use this product to kill [many listed insects.-Optional language] Cockroaches, Spiders, Silverfish, Houseflies, Wasps, Hornets, Yellow Jackets, Fleas, Ticks, Ants, Scorpions, Aphids, [Mites-(European red, two-spotted(red spider), Pacific and clover - Optional language], Leafhoppers, Flea Beetles, Whiteflies, Cabbage Loopers, Potato Beetles, Webworms, Cabbageworms, Harlequin Bugs, Mexican Bean Beetles, Crickets, Cucumber Beetles, Wireworms, Diamond Back Caterpillars, Cross-Striped Cabbageworm, Boxelder Bugs, Tomato Fruitworms, Stinkbugs, Green Peach Aphids, Bean Leaf Beetles and Japanese Beetles [and many others-Optional language.]

Use this product to kill Fleas and Ticks that exist in and around the home and yard. This product is ideal for treating pets, pet sleeping areas, localized areas of floor and floor covering, closets and along and behind windows, door frames and baseboards.

2. HOW DO YOU USE IT? SHAKE WELL BEFORE USING.

In The Home: To kill crawling insects, spray all surfaces where these insects are found. Spray around walls, baseboards, cabinets, shelves, sinks, etc. and similar hiding places. Treat ant trails, nests & runs. When possible, spray insects directly. To control House Flies, Fruit Flies, Mosquitoes, Gnats, and small flying moths, apply and adjust sprayer to deliver a fine mist. Cover and remove exposed food and food handling surfaces. Close windows, doors and shut off ventilation systems. Spray toward center of room to fill room with mist. Use 4 to 5 ozs. per 1,000 cubic feet space. Keep area closed for at least 30 minutes after treatment. Vacate treated areas and ventilate before occupying. Repeat only as necessary to maintain insect control.

TO CONTROL FLEAS INDOORS: Thoroughly apply as a spray for spot treatment to infested areas such as pet beds and resting quarters: nearby cracks and crevices; along and behind window and door frames and localized areas of floor and floor coverings where these pests may be present. Old bedding should be removed and replaced with clean, fresh bedding after treatment of pet areas.

TO CONTROL TICKS: Thoroughly spray sleeping quarters of animals. Spray infested areas around baseboards, window and door frames, wall and floor coverings where localized areas of infestation occur. Applications should be repeated only as necessary to maintain insect control. Fresh bedding should be placed in animal quarters following treatment.

[BACK/SIDE LABEL PANEL]

TREATMENT OF DOGS & CATS: To kill Fleas and Ticks, cover animal's eyes with hand and spray head, ears and chest until damp. With fingertips rub into face around mouth, nose and eyes. Then spray neck, body and legs. For best penetration of spray to the skin, direct spray against the natural lay of the hair. On long-haired dogs and cats rub hand against the lay of hair, spraying the ruffled hair directly behind the hand. Make sure spray thoroughly wets ticks. Repeat every 7 days, if needed. For best results against Fleas and Ticks on dogs, the kennels or animal quarters should also be treated.

Do not use on puppies or kittens under 12 weeks of age.

Consult a veterinarian before using this product on debilitated, aged, pregnant or nursing animals.

OUTDOOR USE: As an aid in reducing annoyance from Fleas, Ticks and other listed insects, spray outside surfaces of screens, doors, windows, frames, or wherever these pests may enter the home. Also treat surfaces around porches, in garages, around the yard and other places where these pests may congregate.

VEGETABLES, SHRUBS & FLOWERS: Hold sprayer 12 inches from foliage and spray to wet plant surfaces. Repeat only as necessary to maintain insect control. May be applied on day of harvest. Apply to the plants: African Violets, Azaleas, Begonias, Camellias, Dahlias, Dogwood, Roses, Wandering Jew, Asters, Carnations, Chrysanthemums, Geraniums, Gladioli, Marigolds, Asparagus, Beans, Broccoli, Cauliflower, Cabbage, Brussels Sprouts, Tomatoes, Peppers, Celery, Lettuce, Eggplant, Mustard Greens, Kale, Cabbage, Collards, Turnips, Potatoes, Radishes & Spinach.

WASPS, HORNETS AND YELLOW JACKETS: Spray to thoroughly wet nests and these pests on nests. Spray wherever possible, under eaves, into nests, cracks or holes where insects are noticed.

MOSQUITOES: For control outdoors, apply as a fine mist to shrubbery and vegetation where mosquitoes may rest. Apply around stagnant pools, ponds, swamps and other breeding areas.

HORSES AND CATTLE: To control Horn Flies, House Flies, Mosquitoes and Gnats, apply to wet the hair thoroughly with particular attention to topline, underline, flanks, withers and other infested areas. Repeat at 5-12 days for small infestations and only as necessary when insects are in large numbers.

[BACK/SIDE LABEL PANEL]

3. HERE ARE THE RESULTS YOU MAY EXPECT!

A quick, easy and effective kill of destructive insects in the home, garden, on shrubs, vegetables, flowers and pets. When used according to directions, this easy to use effective product will rid your home and property of annoying [insects-Optional language] Fleas and Ticks.

STORAGE AND DISPOSAL

STORAGE: Store in original container. Keep in an area inaccessible to children and pets.

DISPOSAL: If empty: Do not reuse this container. Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed or absorbed through the skin. Avoid breathing vapors or spray mist. Avoid contact with skin and eyes. In case of contact, immediately flush eyes or skin with plenty of water. Obtain medical attention if irritation persists. Do not apply directly to food. Cover or remove any food or food processing equipment during application. Do not apply while food processing is underway. In the home, all food processing surfaces and utensils should be covered or removed during treatment, or washed with an effective cleaning compound followed by a potable water rinse prior to use. Remove birds and cover fish aquariums before spraying. Sensitivities may occur after using ANY pesticide product for pets. If signs of sensitivity occur bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately.

FIRST AID

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-222-1222 or 1-800-900-4044 for emergency medical treatment information.

If swallowed	<ul style="list-style-type: none"> • Call poison control center or doctor immediately for treatment advice. • Have person sip a glass of water if able to swallow. • Do not induce vomiting unless told to do so by the poison control center or doctor. • Do not give anything by mouth to an unconscious person.
If inhaled	<ul style="list-style-type: none"> • Move person to fresh air. • If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. • Call a poison control center or doctor for further treatment advice.

If on skin or clothing	<ul style="list-style-type: none"> • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes. • Call a poison control center or doctor for treatment advice.
If in eyes	<ul style="list-style-type: none"> • Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. • Call a poison control center or doctor for treatment advice.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. For terrestrial use only. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters. Shrimp and crab may be killed at the application rates recommended on this label. Do not apply where these are important resources.

Buyer assumes all risks of use, storage or handling of this product not in strict accordance with directions given herewith. Voluntary Purchasing Groups, Inc. warrants this product to conform to the chemical description on the label and for the purposes stated on the label. The limit of any liability incurred shall be the purchase price paid by the user or buyer.
