Dear Registrant:

The Agency is in receipt of your Application(s) for Pesticide Notification under Pesticide Registration Notice (PRN) 2007-4 and 2008-1 dated January 14, 2009 for:

**EPA Registration 7401-319 Ferti-Lome Quick Kill Home and Garden Insect
Spray**

The Registration Division (RD) has conducted a review of this request for applicability under PRN 2007-4 and 2008-1 and finds that the label change(s) requested falls within the scope of PRN-2007-4 and 2008-1. The label has been date-stamped "Notification" and will be placed in our records.

Please be reminded that 40 CFR Part 156.140(a)(4) requires that a batch code, lot number, or other code identifying the batch of the pesticide distributed and sold be placed on nonrefillable containers. The code may appear either on the label (and can be added by non-notification/PR Notice 98-10) or durably marked on the container itself.

If you have any questions, please contact me directly at 703-305-6249 or Banza Djapao of my staff at 703-305-7269.

Sincerely,

TO CONTROL FLEAS INDOORS: Thoroughly apply as a spray for spot treatment to infested areas such as pet beds and resting quarters; nearby cracks and crevices; along and behind window and door frames and localized areas of floor and floor coverings where these pests may be present. Old bedding should be removed and replaced with clean, fresh bedding after treatment of pet areas.

TO CONTROL TICKS: Thoroughly spray sleeping quarters of animals. Spray infested areas around baseboards, window and door frames, wall and floor coverings where localized areas of infestation occur. Applications should be repeated only as necessary to maintain insect control. Fresh bedding should be placed in animal quarters following treatment.

TREATMENT OF DOGS & CATS: USE ONLY ON DOGS & CATS:

To kill Fleas and Ticks, cover animal's eyes with hand and spray head, ears and chest until damp. With fingertips rub into face around mouth, nose and eyes. Then spray neck, body and legs. For best penetration of spray to the skin, direct spray against the natural lay of the hair. On long-haired dogs and cats rub hand against the lay of hair, spraying the ruffled hair directly behind the hand. Make sure spray thoroughly wets ticks. Repeat every 7 days, if needed. For best results against Fleas and Ticks on dogs, the kennels or animal quarters should also be treated.

Do not use on puppies or kittens under 12 weeks of age.

Consult a veterinarian before using this product on debilitated, aged, medicated, pregnant or nursing animals.

OUTDOOR USE: As an aid in reducing annoyance from Fleas, Ticks and other listed insects, spray outside surfaces of screens, doors, windows, frames, or wherever these pests may enter the home. Also treat surfaces around porches, in garages, around the yard and other places where these pests may congregate.

VEGETABLES, SHRUBS & FLOWERS: Hold sprayer 12 inches from foliage and spray to wet plant surfaces. Repeat only as necessary to maintain insect control. May be applied on day of harvest.
