PREVENTIVE PROGRAM Begin applications when disease threatens or when conditions favor disease development. During periods of very wet or damp weather, apply every 7 days. Use lower rates when disease conditions are light to moderate; higher indicated rates when conditions are severe.

CURATIVE PROGRAM If disease is already established, use curative rate. Higher indicated rate should be applied under severe conditions. Make at least 3 successive applications at 7 day intervals. Continue treatments using PREVENTIVE PROGRAM until lawn has recovered.

3. HERE ARE THE RESULTS YOU SHOULD EXPECT:

This product will effectively control listed diseases for healthier, more beautiful grass and Dichondra Lawns.
