

P. 282

BACK PANEL

1. WHAT IS THIS PACKAGE FOR?

This new product kills borers in the trunks of fruit and nut trees wherever borer larvae are working underneath the bark.

2. HOW DO YOU USE IT?

To kill Lesser Peach Tree Borers in Peach, Plum, Prune, Cherry and Almond trees mix 2½ tablespoons in 1 gallon of water. Spray trunk and lower branches. Repeat at three week intervals. Do not treat peach trees within 7 days of harvest, nor cherry, plum, or prune trees within 3 days of harvest.

3. HERE ARE THE RESULTS YOU MAY EXPECT!

This new product, when used according to directions, will greatly aid you in controlling borer problems thus permitting healthy, more vigorous growth of your fruit and nut trees.

CAUTION: May be harmful if swallowed or absorbed through the skin. Do not breathe spray mist. Avoid contact with skin, eyes and clothing. Wash thoroughly after handling. Avoid contamination of feed and foodstuffs.

DO NOT USE, POUR, SPILL OR STORE NEAR HEAT OR OPEN FLAME.

This product is toxic to fish. Keep out of lakes, streams or ponds. Do not contaminate water by cleaning of equipment, or disposal of wastes. Apply this product only as specified on this label.

Food utensils such as a teaspoon or measuring cup should not be used for food purposes after use with insecticides.

Do not reuse container for any purpose. Destroy empty container.

NOTICE: Buyer assumes all risks of use, storage or handling of this material, not in strict accordance with directions given herewith.
