DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Hi-Yield Terraclor Fungicide provides an easy, economical and effective method for controlling Brown Patch, Dollar Spot, Leaf Spots and Rust on Bermuda, St. Augustine, Centipede, Bahia, Bluegrass, Fescue & Ryegrass lawns. Also, controls Brown Patch on Dichondra.

Make first application at first sign of disease or for best results apply Hi-Yield Terraclor as a preventative against disease before it appears. Once the disease appears, applications will only control further spread of the disease not cure it. For Bermuda, St. Augustine, Centipede, Bahia and other warm season grasses, apply 8 lbs. to cover 1,000 sq.ft. See table below for spreader settings on warm season grasses. For Bluegrass, Fescue & Ryegrass, apply 8 lbs. to cover 2,000 sq.ft. See table below for spreader settings on cool season grasses. For Dichondra apply 8 lbs. to cover 500 sq.ft. to control Brown Patch. See table below. After application is made, lightly water treated area to insure movement through grass to the soil level. If treated area is subjected to unusually heavy rainfall or flooding, or if disease is severe and re-appears, the area should be re-treated at 3-4 week intervals as needed.

Spreader Model	SPREADER SETTINGS*		
	Cool Season Grasses	Warm Season Grasses	Dichondra
ferti-lone Cyclone/Broadcast	3	4	5
ferti-lone Deluxe	5	6	7
Sears	5	6	7
Scotts	6	7	8

*These settings can be used only as a guide; they are not absolute. The speed at which the applicator walks, the condition of the spreader, and the texture of the turf will alter the rate of application. After making application, should an unused material be left, apply the unused portion over the area just treated by crossing the direction of travel made during their first application pass.

NOTE: Under certain growing conditions, a temporary discoloration of the grass occasionally may occur. This causes no harm and will disappear in a short time. Do not graze treatment areas or feed clippings to livestock.

DISPOSAL

Do not re-use empty container. Wrap container and put in trash collection.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS & DOMESTIC ANIMALS

CAUTION: Harmful if swallowed. May be irritating to eyes, nose, throat & skin. Avoid breathing dust. Avoid contact with skin, eyes or clothing. Wash thoroughly after using. Wear protective clothing such as long sleeved shirt, rubber gloves and respirator when loading spreader. Avoid contamination of feed or foodstuffs. Keep children and pets off treated areas until this material is washed into the soil and the treated area has dried completely. Avoid contact with skin by wearing the following protective clothing: Long sleeved shirt, long pants, socks and shoes. Wash hands thoroughly after using.

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED - Call a physician or Poison Control Center immediately. Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger. Never induce vomiting or give anything by mouth to an unconscious person.

IF INHALED - Remove victim to fresh air. Apply artificial respiration if indicated.

IF ON SKIN - Remove contaminated clothing. Wash affected areas with soap and water.

IF IN EYES - Flush eyes with plenty of water. Get medical attention.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes.
