DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Hi-Yield(R) Flea and Tick Killer kills fleas and ticks in and around your home. This product is ideal for treating pet sleeping areas, closets, door frames, baseboards, windows and localized areas of floor and floor coverings.

INDOORS: Thoroughly apply, as a spray for spot treatment, to infested areas such as pet beds, resting quarters and along cracks crevices where these pests may be present. Old bedding should be removed and replaced with clean, fresh bedding after treatment. Applications should be repeated as necessary. Do not treat pets with this product. To control fleas and ticks on pets, we recommended ferti-lome Flea & Tick Killer.

OUTDOORS: Thoroughly spray doors, windows, frames, surfaces of screens and other areas where these pests may enter the home. Also treat around porches, in garages, around the yard, refuse dumps and other areas where these pests congregate. Application should be repeated as necessary.

STORAGE: Store in original container and place in a locked storage area.

DISPOSAL: Do not reuse container. Wrap and put in trash.

PRECAUTIONARY STATEMENTS

CAUTION: May be harmful if swallowed or absorbed through the skin. Do not breathe spray mist. Avoid contact with skin, eyes or clothing. Wash thoroughly after handling and before eating or smoking. Avoid contamination of feed or foodstuffs. Keep children and pets off treated areas until dry.

STATEMENT OF PRACTICAL TREATMENT

If swallowed - Call a physician or Poison Control Center. Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person.

If on skin - Remove contaminated clothing and wash affected areas with warm water and soap.

If in eyes - Flush eyes with plenty of water. If irritation persists, consult Physician.

NOTE TO PHYSICIAN: Chlorpyrifos is a cholinesterase inhibitor. Treat symptomatically.

Atropine, only by injection, is the preferable antidote.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, birds and other wildlife. Do not apply to water or wetlands.

This product is highly toxic to bees exposed to direct treatment or residues on plants.

Consult Agricultural Extension Service for protective information. Do not contaminate water by cleaning of equipment or disposal of wastes.

Buyer assumes all risks of use, storage or handling of this product not in strict accordance with directions given herewith. Voluntary Purchasing Groups, Inc. warrants this product to conform to the chemical description on the label and for the purposes stated on the label. The limit of any liability incurred shall be the purchase price paid by the user or buyer.
