

Potable water rinses are no longer permitted on food contact surfaces. Since your product is not cleared for use on food contact surfaces under the Federal Food, Drug and Cosmetic Act, your product cannot be used on food contact surfaces.

3. Submit five (5) copies of your final printed labeling before you release the product for shipment.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product bearing the amended labeling constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Note for your files that the Confidential Statement of Formula submitted is acceptable and the clarification regarding confirmatory data has been included into your file.

Sincerely yours,

John H. Lee

Attention: Don Morse

Subject: Bactron K-31
EPA Registration No. 8133-20
Your Submission Dated July 31, 1985

The amendment requesting an alternate formulation and the revised labels, submitted in connection with registration under FIFRA, are acceptable provided that you:

1. Align the percentage of the active ingredient in the label ingredient statement with the ingredient, "Glutaraldehyde25%".
2. Include your complete EPA Registration No. on the label.

Your release for shipment of the product bearing the amended labeling constitutes acceptance of these conditions.

A stamped copy of the labeling is enclosed for your record.

The registration record for the product referenced above has been amended to include the additional brand name listed below:

Bactron K-31W

It is understood that the label will be identical with that of the basic label accepted under this registration except for the product name.

Sincerely yours,

John H. Lee
