

**EPA Est. 7405-FL-1**

An effective surface disinfectant for gram positive and gram negative bacteria, fungi, and viruses. Kills and loosens bacteria, fungi, and viruses.

For HOSPITAL use on floors, walls, ceilings, gowns, gaiters, linens, carts, wheelchairs, metal surfaces, toilet seats, telephones, and switches. Wash hands in 10% solution. Door knobs. All other hard non-porous surfaces.

For hard surfaces on floors, walls, ceilings, gowns, gaiters, linens, carts, wheelchairs, metal surfaces, toilet seats, telephones, and switches. Wash hands in 10% solution. Door knobs. All other hard non-porous surfaces.

**DIRECTIONS**

1. Dilute 1 part of disinfectant in 10 parts of water. Use this solution for disinfecting floors, walls, ceilings, gowns, gaiters, linens, carts, wheelchairs, metal surfaces, toilet seats, telephones, and switches. Wash hands in 10% solution. Door knobs. All other hard non-porous surfaces.
