WARRANTY: Our only obligation shall be to replace or pay for any material proved defective. Beyond the purchase price of materials supplied by us, we assume no liability for damages of any kind including consequential and the user accepts the product "as is" and without warranties, express or implied. The suitability of the product for an intended use shall be solely up to the user. For specialized applications, consult your local representative.

JASCO TERMIN-8 PRECAUTIONARY STATEMENTS & HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING: May be harmful if swallowed. Causes eye and skin irritation. Avoid contact with skin, eyes and clothing. Do not take internally. Avoid breathing of vapors or spray mist. Use only in well-ventilated areas. Wash thoroughly with soap and water after handling. Get medical help if necessary.

PRECAUTIONS: If SWALLOWED, do not induce vomiting. Call physician immediately. If IN EYES, flush with plenty of water. If irritation persists, get medical attention. If INHALED, move to fresh air. IF ON SKIN, wash with plenty of soap and water. If irritation persists, get medical attention.

ENVIRONMENTAL HAZARDS: — This product is toxic to fish. Do not apply directly to water or wetlands. Do not contaminate water when disposing of equipment washwaters.

PHYSICAL AND CHEMICAL HAZARDS — COMBUSTIBLE! Do not store near heat or open flame. To avoid spontaneous combustion, discard oily rags in a water-filled container. Close container after each use.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

DRIP • SPRAY • BRUSH • ROLL

Paint, varnish, wax or other films and all built must be removed before applying Termin-8. All untreated wood should be removed at least 2 feet beyond any visible evidence of decay to control termites, carpenter ants and powder-post beetles. Wood must be normally dry.

ABOVE-GROUND WOOD: Soak wood for at least 3 minutes for best results. If this is not possible, apply 2 coats by brush, roller or low-pressure spray. Cover all surfaces.

BELOW-GROUND WOOD: Soak wood for 12 to 24 hours covering 6 inches above ground level. If not possible, apply 2 heavy coats within 18 months of each other.

PRESSURE-TREATED WOOD: Apply a generous coat to exposed surfaces from cutting, sanding or boring pressure-treated wood.

COVERAGE: 100 - 300 square feet, depending on the porosity and surface roughness. 7 gallons per 1000 board feet for open-tank treatment.

PRIMER: Ideal as an undercoating. Allow 24 hrs. drying time before finishing with paint or other coating material. Termin-8 may show through the first coat of some light-colored paints.

CLEAN-UP: Use paint thinner or mineral spirits.

STORAGE AND DISPOSAL

Store at temperature between 40°F and 100°F. If the product has been spilled or is leaking, remove source of spill or leak. Recover free liquid. Spread absorbent, then pick up and place in containers. Where applicable, wash area with detergent and water. Store product and, in the original container. Keep container closed when not in use. Do not reuse empty container. Securely wrap original in several layers of newspaper and discard in the trash.
