

# JASCO PENTA-40

DIRECTIONS FOR MIXING  
USE ONLY IN DILUTED FORM

Add 10 parts of Mineral Spirit or Kerosene to one gallon of PENTA 40. The solution when well agitated will contain 5% Pentachlorophenol. Paint will not adhere to the surface if it is desired to paint treated wood. PENTA 40 should be used:

## WOOD PRESERVATION LUMBER • POLES • FENCE POSTS

PENTA 40 can be used to control powder post beetles and termites in new, dry, red, green, and various types of wood decay. PENTA 40 should be used to treat wood which comes in contact with soil or excessive moisture. After diluting, apply to lumber, poles, posts, and other wood products by a hot cold bath process, by soaking, spraying, or brushing. The most effective treatment is obtained where deep penetration and high absorptions result. Soaking or a hot cold bath process gives better results than spraying or brushing and should be used where possible. Fence posts should be marked and air-leached at 100° F. and then soaked 24 to 48 hours. The posts should be well treated. Lumber for top rails should be soaked for at least 12 hours. When the wood is in contact with soil and contact, brushing or swabbing may be used. The posts should be thoroughly drenched.

## SOIL POISON FOR TERMITES

For termite control, apply PENTA 40 to the soil around the base of the structure to be protected. Apply PENTA 40 to the soil around the base of the structure to be protected. For termite control, apply PENTA 40 to the soil around the base of the structure to be protected. For termite control, apply PENTA 40 to the soil around the base of the structure to be protected.

COVERAGE: Use 100 parts of the concentrate per gallon of diluent. The amount of diluent to be used will depend on the type of wood to be treated, depending on porosity.

## WARNING: FLAMMABLE!

Harmful if swallowed or absorbed through the skin. Causes skin irritation! Do not breathe vapor or spray mist. Do not get in eyes, on skin or on clothing. Wash thoroughly after handling, with soap and plenty of water. For eyes, flush with plenty of water for at least 15 minutes and get medical attention. Do not store or use near heat or open flame. Wear protective clothing and rubber gloves when handling the freshly treated lumber.

This product is toxic to fish and wildlife. Keep out of lakes, streams or ponds. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

Do not reuse empty container. Destroy it by perforating or crushing. Bury or discard in a safe place.
