PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION

Avoid contact with eyes. Avoid breathing

Wash

STATEMENT OF PRACTICAL TREATMENT

Make person

Flush eyes with fresh water for 15 minutes. If irritation continues

Wash with soap

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Keep out of any body of water. Do not apply when weather conditions favor drift from area being treated. Do not contaminate water by cleaning of spray equipment or disposal of waste. Do not contaminate streams or fish ponds.

BEE CAUTION This product is toxic to bees and should not be applied when bees are actively visiting the area.

STORAGE and DISPOSAL DIRECTIONS

Avoid storage near feed and food products. Keep container closed when not in use. Store in a dry place.

Disposal Do not reuse empty container. Wrap in newspaper and put in trash collection.

DIRECTIONS FOR USE

Begin application at first sign of infestation (for fruits begin at petal fall) and repeat at 7 to 14 day intervals or as needed. Do not apply to crops within the number of days specified before harvest or grazing as shown by PHL (re harvest Limitation).

Gardens Apply dust when insects or their damage appear. Make applications in the morning or evening when it is cool. Treat upper and lower surface of all foliage for complete coverage. Repeat as necessary, generally at 7 - 14 day intervals. Apply with a good dust gun. Do not apply in excess. Apply when foliage is dry. Adjust amount applied for complete coverage.

Small Fruit Blueberry: Japanese Beetle, Leafhoppers, PHL - 4 days. Blackberry, Raspberry, Strawberry: Rose Chafer, Strawberry Weevil, Flea Beetles, Grasshoppers, Japanese Beetles, PHL: 14 days, 10 - 15 lbs. per acre.

Vegetables Beans, Blackeyed Peas: Corn Earworm, Cucumber Beetles, Fall Armyworm, Alfalfa and Garden Webworms, Flea Beetles, Mexican Bean Beetle, Potato Leafhopper, Bean Leaf Beetle, Japanese Beetle, PHL - 7 days (may be fed within 3 days of harvest if vines are not used for livestock forage). As a general rule, 15 to 20 pounds per acre every 7 - 14 days is the usual application. Adjust according to size of plants.

Cucumber, Melons, Summer Squash: Squash Vine Borers, Fall Armyworm, Cucumber Beetle, Flea Beetle, apply 10 - 20 lbs. per acre depending on size of vines, PHL - 1 day.

Potato (Irish): Colorado Potato Beetle, Flea Beetles, Fall Armyworm, Leafhoppers, Blister Beetles, PHL - none, 10 - 20 pounds per acre.

Sweet Potato: Fall Armyworm, Flea Beetles, PHL - None, 15 - 20 lbs. per acre. Adjust for complete coverage.

Tomatoes: Colorado Potato Beetle, Flea Beetles, Fall Armyworm, Leafhoppers, Blister Beetle, PHL - 1 day, 15 - 20 lbs. per acre. Adjust for complete coverage.

Flowers & Ornamentals such as roses, chrysanthemums, dahlias, shrubs, shade trees: Blister Beetles, Grasshoppers, Cucumber Beetles, Flea Beetles, Fall Armyworm, Flower Thrips, Japanese Beetle, Leafhoppers, Lace Bugs, Spider Mites, Saw Flies, Tent Caterpillars. Begin application at first sign of infestation and repeat at 7 to 14 day intervals or as needed for adequate control.
