INGREDIENT STATEMENT - REVISE AS FOLLOWS:

Active Ingredients:	By Weight
Metalaxyl*.....	12.5%
Inert Ingredients**.....	87.5
Total.....	100.0%

\* N-(2,6-dimethyphenyl)-N-(methoxyacetyl)alanine methyl ester  
\*\* Contains Graphite

DIRECTIONS FOR USE AS FOLLOWS:

DIRECTIONS FOR USE

It is a violation of State and Federal Law to use this product in a manner inconsistent with its labeling.

FAILURE TO FOLLOW THE DIRECTIONS FOR USE AND PRECAUTIONS ON THIS LABEL MAY RESULT IN CROP INJURY OR POOR DISEASE CONTROL.

Gustafson APRON Dry Fungicide Seed Protectant is a dry powder formulated specifically for seed treatment application. Unique formulation technology has been incorporated to help lubricate the planter; thus allowing a smooth even flow of seed to the furrow, while providing uniform seed coverage and adherence to the seed.

Gustafson APRON Dry should be applied by thoroughly mixing with seed in the planter box with the Mighty Mixer or utilizing the Gustafson CF-80\* treater or other dry seed treatment application equipment to maximize seed coverage, (\*Calibrate the Gustafson CF-80 treater as per the manufacturer's instruction.)

NOTE: Federal Law requires that bags containing treated seeds shall be labeled with the following information: "This seed has been treated with Gustafson Apron Dry seed protectant fungicide. Do not use for feed, food, or oil purposes. Store away from feeds and foodstuffs.: Use with an EPA-approved dye that imparts an unnatural color to the seed.

USE PRECAUTIONS: Add the following:

Seed treatments must be thoroughly mixed with the seed, and planters adjusted to the manufacturers directions (planting rates including air or vacuum may be effected by seed additives).

ALL TEXT INDICATED BY UNDERLINING HAS NOT PREVIOUSLY BEEN GRANTED REGISTRATION.
