GENERAL: Gustafson LSP is a systemic fungicide especially formulated as a liquid suspension seed protectant for use as a spray mist or slurry seed treatment.

SEED TREATMENT: Clean seed treatment equipment thoroughly before using Gustafson LSP. This product has no vapor action; therefore, it is essential that thorough coverage of the seed be obtained. In this regard, Gustafson LSP is recommended to be dispersed with water to aid distribution on the seed. When dispersed with water, however, the resulting suspension must be kept under constant agitation.

Gustafson LSP is recommended for the control of seed and soil-borne Common Bunt (Stinking Smut) attacking wheat; also aids in control of Dwarf Bunt.

WINTER AND SPRING WHEAT: Control of seed and soilborne Common Bunt (Stinking Smut): For ready mix or slurry seed treaters, disperse 2.0 fl. oz. of Gustafson LSP for seed borne Common Bunt, or 4.0 fl. oz. for soilborne Common Bunt, in an equal amount of water (1:1 ratio) and apply this dispersion per bushel. Keep dispersion under constant agitation.

WINTER WHEAT ONLY: Aids in control of Dwarf Bunt in Colorado, Idaho, Montana, Oregon, Washington, Wyoming, and Utah: For ready mix or slurry seed treaters, disperse 4.0 - 6.0 fl. oz. of Gustafson LSP in an equal amount of water (1:1 ratio) and apply this selected dispersion per bushel. Keep dispersion under constant agitation. For best results against Dwarf Bunt, plant winter wheat treated with Gustafson LSP as late in the growing season as is practical. Use only on normal or late winter wheat plantings. Use the lower rate for late plantings of winter wheat. The level of product effectiveness will vary with the weather conditions and amount of plant growth which occurs prior to the disease infection period.

USE PRECAUTION: When using formulations that do not contain dye, to comply with 21 CFR Chapter 1, Section 2.25 all grain seed treated with an economic poison must be colored with an approved dye (40 CFR 180.100f) to distinguish and prevent subsequent and inadvertent use as a food for man or feed for animals.
