E.P.A. Reg. No. 7504-2

DIRECTIONS

CHLORO-ZOL is used in a 0.1 to 1.0 percent solution.

The contents of one capsule will make approximately 35 ounces (a little over one quart) of a 0.1 percent solution, or approximately 3.5 ounces of a 1.0 percent solution.

For disinfecting instrument, combs, brushes, etc., wash them thoroughly with hot

water and soap, thoroughly rinse in clean water; then immerse for 5 to 30 minutes in solution using 1 capsule to 1 pint warm water, thoroughly rinse in clear water and place in dry sanitary airtight cabinet containing 2 or more **ALDEFORM DISCS**.

CAUTION: Harmful if swallowed. Use Chloro-Zol Powder only in solution as directed. Always have hands dry when handling Chloro-Zol capsules.

Capsule contents irritating to eyes, nose and throat. Do not get capsule content in eyes, on skin or on clothing. Avoid breathing of dust. In case of contact flush with water. If irritation persists, get medical attention. Avoid contamination of foodstuffs. Empty contents of capsule; do not put the capsule in water. Rinse capsule container thoroughly with water and discard in safe place.
