Pine Oil Disinfectant is emulsifiable with water and forms rich white emulsions. It is non-corrosive and when mixed with water in dilutions suggested, does not stain the walls, floors, cloths, and leaves a fragrant Pine odor.

Recommended dilution to equal a 5% Solution of Phenol.

1 part disinfectant
100 parts water

GENERAL DISINFECTING—Clean all rubbish and dirt from premises. Use a 5% solution in disinfecting for action against S. Typhosa.

TOILETS AND URINALS

Use a 5% Solution to wash Toilets and Urinals regularly. Scrub the floors and seats regularly.

SICK ROOM

In disinfecting of clothes, utensils, room and bed clothes use a 5% Solution.
