

### DIRECTIONS

FOR ROUTINE CLEANING—Use 2 ounces of this cleaner to a gallon of warm water. Mop or spread solution over area to be cleaned, allowing it to "work" for a few minutes then take up with a dry mop or vacuum. Scrubbing machines may be used satisfactorily with this same strength solution.

FOR CLEANING BACTERIOSTATICALLY — Use 1/2 pint to a pail of warm or hot water and spread solution over area to be cleaned. Allow to "work" several minutes then agitate by scrubbing with a brush or machine to loosen accumulated grease, oil, grime, and ground-in dirt. After surface is cleaned, remove excess with squeegee, dry mop or vacuum. If desired, surfaces may be rinsed with clean water but this is not necessary.

\*FOR FLOORS: To strip wax or "deep clean" porous surfaces, use 1 part CONCENTRATE in 20 parts hot water. Apply generously and allow time for cleaning action. Rinsing is not necessary. Non-porous floors are easily stripped with 1 part CONCENTRATE in 30 parts water. To remove stubborn stains, apply liberally and agitate area. Only in most severe cases is scrubbing necessary.

## BACTERIOSTATIC MULTI-PURPOSE CONCENTRATED CLEANER

WITH  
HEXACHLOROPHENE

Active Ingredients: 12.5% Diethanolamides of Fatty Acids of Coconut Oil, Sodium Xylene Sulfonate.

2,2-methylenebis-(3,4,6-trichlorophenol), Trisodium Phosphate  
Inert Ingredients: 87.5% Water; Sodium Tripolyphosphate; Artificial Coloring.

**Cleans! Deodorizes! Germ-Proofs! All in One Operation**

### CAUTION

**KEEP OUT OF REACH OF CHILDREN**

CLEAN BETTER FOR LESS —

BY FOLLOWING DILUTION DIRECTIONS, FLOORS AND OTHER SURFACES ARE CLEANED BACTERIOSTATICALLY AND DEODORIZED IN THE SAME OPERATION—MAKING FOR ECONOMY IN MONEY, TIME AND LABOR.

DERRICK SOAP PRODUCTS CO.

### NEW BACTERIOSTATIC ACTION

This cleaner contains hexachlorophene to give it bacteriostatic as well as cleaning properties. If you follow the directions given your floor will be germ-proofed, deodorized, and cleaned at the same time.

### DEODORIZING ACTION

Germs multiplying in debris build up bad odors. By bacteriostatically cleaning your floors with this product the source of many obnoxious odors is removed and the room remains fragrant and clean-scented for hours afterwards. Here's cleaning at its most efficient—germ-proofed cleaning—deodorized cleaning.

**GERM-PROOF  
ALL SURFACES**

**DAILY**

Leaves an invisible microscopic surface that inhibits Bacteria Growth.  
Bacteriostatic Activity maintained long after application.
