PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Corrosive. Causes irreversible eye damage or skin burns. Harmful if swallowed or adsorbed through skin or inhaled. Do not get in eyes, on skin or clothing. Avoid breathing spray mist. Wear goggles or face shield. Wear protective clothing and rubber gloves. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse.

ENVIRONMENTAL HAZARDS

Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

USE DILUTION:

1 ounce to 2 gallons

PHOSPHOROUS CONTENT:

Not over 6.5%

DIRECTIONS FOR USE

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING. READ AND UNDERSTAND LABEL AND MATERIAL SAFETY DATA SHEET BEFORE USE.

THIRD TANK GLASS WASHING

General Information

For Use in Food Service Areas of Public Eating Places, Healthcare Facilities, Schools and Bars.

O-SAN is an acid-anionic type sanitizer for glassware and other utensil sanitization. It is for bar glassware because it has no odor in use dilution and completely eliminates problems from water hardness minerals. It provides a brilliant, odor-free glimmering glass after every wash-sanitize cycle and keeps glassware, drain-boards and sinks free of hard water film.

1. Pre-flush and/or scrape utensils and glasses where possible.
2. Wash in a recommended manual detergent.
3. Rinse with clean water.
4. Sanitize in a solution of 1 ounce of **O-SAN** to 2 gallons of water (200 ppm). Check solution with short range (3.0-5.5) pH papers. 200 ppm = 4.5 pH. If pH reads greater than 4.5, add more product to solution and check pH again. If pH reads less than 4.5, dilute solution with water and check again.
5. Place sanitized utensils on a **CLEAN, SANITIZED** rail or drainboard to air dry.

NOT recommended for use in galvanized sinks. Do not mix with chlorine, dye, washing powders, or household chemicals.

p.p.m. means "parts per million" active sanitizer.

4/4

FOOD PROCESSING HARD SURFACE SANITIZATION

General Information

O San is a concentrated product and must be diluted before using. Recommended for use on pre-cleaned, hard, non-porous, environmental surfaces in food processing, milk manufacturing and dairy farms.

PREPARATION: Remove gross soils by flushing with water, scraping or brushing. Pre-clean all surfaces. Rinse thoroughly with potable water.

HARD SURFACE SANITIZATION: (glass or stainless, fillers, pipelines, silos, processing vats, bulk tanks and utensils): To sanitize previously cleaned equipment and utensils dip, brush, or spray equipment with a solution of O-SAN at 1 ounce to 2 gallons of water. Provides 200 ppm active sanitizer. Allow at least 3 minutes contact time. Allow equipment to drain well, blow or air dry. When used at levels not exceeding 350 ppm, this product does not require a potable water rinse in accordance with the Code of Federal Regulations Title 21 Part 178.1010. Prepare fresh solution daily. For mechanical applications, used sanitizing solutions may not be reused for sanitizing applications. Mix only with water. Do not mix with products or solutions containing chlorine. O-SAN is authorized by USDS for use in federally inspected meat and poultry plants.

STORAGE AND DISPOSAL

Storage: Store in a cool, dry place. Store in original container only.

Pesticide Disposal: Pesticide Wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be used according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

Container Disposal: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.
