Rinse empty container thoroughly with water and discard it.

Net Contents: U. S. Gallon

## "Sanitation . . . for the Nation!"

### DIRECTIONS

**Cleaning and Disinfecting:** Floors, Walls, Furniture and other surfaces in Nursing Homes, Hospitals, Institutions, Public Rooms, Industrial Facilities, and Conveyances — On non-porous surfaces, use 4 ounces EXTRA per gallon of water. Apply with clean mop or cloth. Where surfaces are heavily soiled, in contagious disease areas — on porous surfaces, use 4 to 6 ounces EXTRA per gallon of water. For maximum cleaning and germicidal activity, the surfaces treated must be wet thoroughly.

**Cleaning and Sanitizing:** Use EXTRA at 2 ounces per gallons of water. Allow at least 2 minutes of contact with surface before rinsing. Apply with clean mop or sponge.

**Cleansing and Deodorizing:** Use EXTRA at 2 ounces to gallons of tepid water. Apply with clean mop or sponge. For severe conditions, flood offending area and allow to soak before mopping and removal. Repeat as required.

#### CAUTION:

This is a concentrated material and must be diluted before using. Avoid contact with skin and eyes. In case of contact, wash thoroughly with water. If irritation persists, get medical attention. Get medical attention for eyes. Avoid contamination of food with this product. **DO NOT MIX** with soaps, anionic detergent or phenolic-type germicides. Use according to directions.

KEEP FROM FREEZING
