

Follow-Thru Action Aids in Reducing the Hazard of Infection; Discourages Odors

GENERAL INFORMATION

This product is designed as a sanitizer for previously cleaned impervious food-utensil and equipment surfaces. Use in recommended strengths — see table below. It fulfills the criteria for Appendix "F" of the grade "A" Pasteurized Milk Ordinance, 1965 Recommendations of the U.S. Public Health Services in waters up to 500 ppm* hardness calculated as CaCO₃.

TABLE OF PROPORTIONS FOR SHURGUARD*

200 ppm* — use 1 ounce to 4 gallons of water
 *"ppm" means "parts per million"

WARNING: Harmful if swallowed. May cause skin irritation or damage to the eyes. Avoid skin contact. **DO NOT GET IN EYES.** In case of contact flush with plenty of water. If eye irritation persists obtain medical attention. Avoid contamination of foods. Do not mix this products with soaps, anionic wetting agents, or phenolic type germicides.

 FOR INDUSTRIAL USE ONLY**

See Left Panel--Read Precautions Carefully

"Sanitation . . . for the Nation!"

DIRECTIONS

Utensil Sanitization:

1. Scrape and prewash utensils and glasses whenever possible.
2. Wash in a detergent solution.
3. Rinse with clean water.
4. Sanitize. Use 1 ounce of this product to 4 gallons of water (200 ppm active sanitizer). Immerse all utensils for at least two minutes or for contact time specified by governing sanitary code.
5. Place sanitized utensils on a clean, sanitized rack or drainboard to air-dry.

ODOR CONTROL

For Public Washrooms, Locker Rooms, Showers, Nursing Homes, Wards, Garbage and Trash Rooms, Morgues and other "Odor Problem" areas — Use SHURGUARD daily or as required. After cleaning thoroughly, rinse or spray with 400 ppm solution. SHURGUARD leaves a clean, fresh atmosphere and discourages subsequent odor production.

Rinse empty container thoroughly with water and discard it.
