| <p><b>NOTE:</b> Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.</p>   |  |
| <p>On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.</p> <p>A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.</p> <p>Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.</p> |  |
| <p>Based on your response to the Reregistration Eligibility Document, EPA has reregistered the above named product subject to the comments recorded in the succeeding paragraph. This action is taken under the authority of section 4(g)(2)(C) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. Reregistration under this section does not eliminate the need for continual reassessment of pesticides. EPA may require submission of data at any time to maintain the registration of your product.</p>   |  |
| <p>Make the following labeling changes before you release the product for shipment:</p> <ol style="list-style-type: none"> <li>1. Refer to the enclosed Isocyanurate RED Attachment A for the necessary revisions to the Precautionary Statements of the subject product label.</li> <li>2. On the submitted CSF, the nominal concentration of 99% should fall between the upper and lower certified limits, not equal to the lower limit. Please revise the lower limit to 98% so that the label does not have to be changed.</li> </ol>  |  |
| <p>A stamped copy of the product label is enclosed for your records <input type="checkbox"/> IF APPLICABLE</p>   |  |
| SIGNATURE OF APPROVING OFFICIAL  | DATE   |

Submit one copy of the final printed labeling before releasing the product in channels of trade with the revised labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

ISOCYANURATE RED ATTACHEMENT A

**LABELING:** (Statements are based on review of referenced acute toxicity data)

1. The signal word is "DANGER"
2. Revise the Precautionary Statements to read:

**CORROSIVE:** Causes irreversible eye damage and skin burns. May be fatal if absorbed through skin. May be fatal if inhaled. Do not breathe dust or spray mists. Irritating to nose and throat. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield, protective clothing and rubber gloves when handling this product. Wash thoroughly with soap and water after handling and before eating, drinking or using tobacco. Remove contaminated clothing and wash before reuse.

3. Revise the Statement of Practical Treatment to read:

**STATEMENT OF PRACTICAL TREATMENT.**

**IF SWALLOWED:** Drink promptly large quantities of water. Do not induce vomiting. Avoid alcohol. Never give anything by mouth to an unconscious person. Call a physician or poison control center immediately.

**IF IN EYES:** Hold eyelids open and flush with a steady, gentle stream of water for 15 minutes. Get medical attention.

**IF ON SKIN:** Wash with plenty of soap and water. Get medical attention.

**IF INHALED:** Remove victim to fresh air. If not breathing, give artificial respiration, preferably, mouth-to-mouth. Get medical attention.

**NOTE TO PHYSICIAN:** Probable mucosal damage may contraindicate the use of gastric lavage.

ACCEPTED  
JUN 30 1994

#### DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

KEM TEK 3" CHLORINATING TABLETS are slow dissolving concentrating tablets for use in erosion type feeders.

1. Remove everything from feeder and rinse thoroughly with fresh water. Never mix KEM TEK 3" CHLORINATING TABLETS with any other tablets or any other chemicals.

2. Fill the feeder with the tablets.

3. Adjust the feed rate so as to maintain a chlorine residual of 1.0-1.5 ppm.

4. Check the pH of the pool water daily, adding KEM TEK DRY POOL ACID or BUFFERED SODA ASH or equivalent products as necessary to maintain pH in 7.2-7.6 range.

5. If the pool is not stabilized with KEM TEK CHLORINE STABILIZER or equivalent, add stabilizer to a concentration of 30 ppm. Consult the label on KEM TEK CHLORINE STABILIZER or equivalent product for exact instructions.

**POOL STARTUP AND HEAVY BATHER LOAD:** At the start of the bathing season, in filled pools, upon filling a pool and after a heavy bathing load, superchlorination is necessary. Superchlorination is the addition of two or three times the normal amount of chlorine to oxidize and remove unwanted organic and inorganic material. The end result is the establishment of a chlorine residual of 1.0-1.5 ppm. A granular chlorinating agent such as SHOCK or KEMEX, which will dissolve rapidly, should be used for superchlorination. Consult the labels on SHOCK or KEMEX for superchlorination instructions. The pool should not be used during superchlorination until the chlorine residual is less than 2.0 ppm.

KEM TEK DRY POOL ACID, BUFFERED SODA ASH, CHLORINE STABILIZER, SHOCK and KEMEX are packaged by Chem Lab.

**STORAGE AND DISPOSAL:** Keep product in tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. In case of decomposition, isolate container in open area if possible, and flood with large amounts of water. Do not reuse empty container. Rinse empty container thoroughly with water to dissolve all material before discarding. Place in trash collection or dispose in approved landfill area.

#### PRACTICAL TREATMENT (FIRST AID)

**IF SWALLOWED:** Drink promptly a large quantity of water. DO NOT induce vomiting. NEVER GIVE ANYTHING BY MOUTH TO AN UNCONSCIOUS PERSON. Avoid alcohol. Get medical attention.

**IF IN EYES:** Flush with plenty of water for 15 minutes. Get medical attention.

**IF ON SKIN:** Immediately brush off excess chemical and flush with plenty of soap and water. Remove contaminated clothing. Wash clothing before reuse. Get medical attention if irritation persists.

**IF INHALED:** Remove person to fresh air. Get medical attention.

**NOTE TO PHYSICIAN:** Probable mucosal damage. May contraindicate the use of gastric lavage.

# 3 - Inch Chlorinating Tablets

Stabilized/Slow Dissolving  
Unique Design For Improved Chlorine Release

**NOTE:** Do not allow direct contact of this product and the following pool surfaces: vinyl, metallic, fiberglass, painted or colored plaster.

For Control of Bacteria and Algae  
in swimming pools

#### ACTIVE INGREDIENT

Trichloro-s-triazinetriene..... 99%  
INERT INGREDIENTS..... 1%  
AVAILABLE CHLORINE..... 88%

KEEP OUT OF REACH OF CHILDREN
