Ms. Cristina Griffin
Agent for KIK Pool Additives, Inc.
Delta Analytical Corporation
12510 Prosperity Drive Suite 160
Silver Spring, Maryland 20904

Subject: 3-Inch Chlorinating Tablets
EPA Registration No.: 7616-18
Application Date: 09/19/2012
Receipt Date: 09/20/2012

Dear Ms. Griffin:

This letter acknowledges receipt of your notification submitted under the provision of FIFRA section 3(c)9 and PR Notice 98-10.

Proposed Notification

- Alternate brand names:
 - Kem-Tek Pool & Spa Care Power 99 3" Chlorinating Tablets
- Additional label claim, "salt system compatible"

General Comments

Based on a review of the submitted materials, your notification for the alternate brand name above and the additional label claim is acceptable.

Should you have any questions or comments concerning this letter, you may contact me by telephone at (703) 308-0410 or by e-mail at harris.monisha@epa.gov or Jaclyn Carl by telephone at (703) 347-0213 or by e-mail at carl.jaclyn@epa.gov. When submitting information or data in response to this letter, a copy of this letter should accompany the submission to facilitate processing.

Sincerely,

Monisha Harris
Product Manager (32)
Regulatory Management Branch II
Antimicrobials Division (7510P)

1. Company/Product Number 7616-18	2. EPA Product Manager Monisha Harris	3. Proposed Classification <input type="checkbox"/> None <input type="checkbox"/> Restricted
4. Company/Product (Name) KIK Pool Additives Inc. / 3-Inch Chlorinating Tablets	PM# 32	
5. Name and Address of Applicant (Include ZIP Code) KIK Pool Additives Inc. c/o Delta Analytical Corp. 12510 Prosperity Drive, Suite 160 Silver Spring, MD 20904 <i>Check if this is a new address</i>	6. Expedited Review. In accordance with FIFRA Section 3(c)(3)(b)(i), my product is similar or identical in composition and labeling to: EPA Reg. No. _____ Product Name _____	

Section - II

Amendment - Explain below
 Resubmission in response to Agency letter dated _____
 Notification - Explain below.

Final printed labels in response to Agency letter dated _____
 "Me Too" Application.
 Other - explain below.

Explanation: Use additional page(s) if necessary. (For section I and Section II.)

Label Notification (PR-Notice 98-10) to add minor label claims, graphics and an alternate brand name: "Kem-Tek Pool & Spa Care Power 99 3" Chlorinating Tablets".

This notification is consistent with the provisions of PR Notice 98-10 and EPA regulations at 40 CFR 152.46, and no other changes have been made to the labeling or the confidential statement of formula of this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to EPA. I further understand that if this notification is not consistent with the terms of PR Notice 98-10 and 40 CFR 152.46, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA.

Section - III

1. Material this Product will be Packaged in:

Child-Resistant Packaging <input type="checkbox"/> Yes* For retail <input type="checkbox"/> No	Unit Packaging <input type="checkbox"/> Yes <input type="checkbox"/> No	Water Soluble Packaging <input type="checkbox"/> Yes <input type="checkbox"/> No	2. 3-INCH CHLORINATING TABLETS

[Adding the following new Alternate Brand Name:]
Kem-Tek Pool & Spa Care Power 99 3" Chlorinating Tablets

For Control of Algae & Bacteria
Stabilized . Slow Dissolving . For Floaters & Feeders . For Treatment of Black Algae

ACTIVE INGREDIENT:
Trichloro-s-triazinetrione.....99.0%
OTHER INGREDIENTS.....1.0%
Total.....100.0%
(88% available chlorine or Available Chlorine – 88%)

KEEP OUT OF REACH OF CHILDREN

DANGER

See back panel for [first aid statement and] other precautions
[or SEE [FIRST AID STATEMENT AND] ADDITIONAL PRECAUTIONS ON BACK PANEL]

Free Pool Care Advice 1-800-SOS-POOL . www.kem-tek.com

FIRST AID: Call a poison control center [(1-800-222-1222)] or doctor for treatment advice. Have the product container or label with you when calling poison control center or doctor, or going for treatment. **If in Eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. **If on Skin or Clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. **If inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration preferably mouth-to-mouth, if possible. **If swallowed:** Have person sip a glass of water if able to swallow. DO NOT induce vomiting unless told to do so by poison control center or doctor. Do not give anything by mouth to an unconscious person. Note to Physician: Probable mucosal damage may contraindicate the use of gastric lavage.
[First Aid may be in table form]

Net Wt.: ____ lb (____ Kg.)

[The following may appear in any appropriate place on the label:]

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: CORROSIVE: Causes irreversible eye damage and skin burns. May be fatal if absorbed through skin. May be fatal if inhaled. Do not breathe dust or spray mists. Irritating to nose and throat. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield, protective clothing and rubber gloves when handling this product. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove contaminated clothing and wash before reuse.

[In accordance with PR notice 95-1, use the following complete Environmental Hazards statement for containers 50 pounds and larger]

ENVIRONMENTAL HAZARDS

This product is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or public waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

[For containers smaller than 50 pounds use the following:]

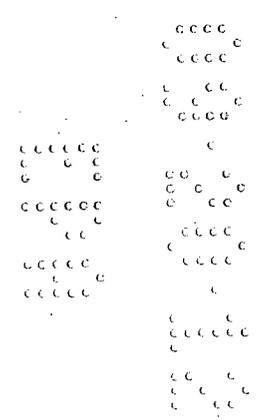

ENVIRONMENTAL HAZARDS

This product is toxic to fish and aquatic organisms.

PHYSICAL OR CHEMICAL HAZARDS

STRONG OXIDIZING AGENT. WILL BURN WITH THE EVOLUTION OF CHLORINE AND EQUALLY TOXIC GASES. CONTACT WITH WATER SLOWLY LIBERATES IRRITATING AND HAZARDOUS CHLORINE CONTAINING GASES. DECOMPOSES AT 460°F to 480°F WITH LIBERATION OF HARMFUL GASES.

IN CASE OF FIRE, if possible isolate container in open air or well ventilated area. Flood with large volume of water. **IN CASE OF CONTAMINATION OR DECOMPOSITION,** do not reseal container.

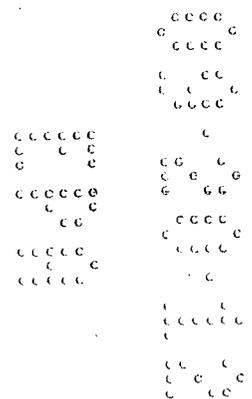

[In the text "this product" may be substituted for 3-Inch Chlorinating Tablets name]

[[Information in brackets] is optional or instructional; italics in brackets indicate instructions not part of labeling.]

DIRECTIONS FOR USE: It is a violation of federal law to use this product in a manner inconsistent with its labeling.

KEM-TEK 3-INCH CHLORINATING TABLETS are slow dissolving, concentrated tablets for use in erosion type feeders.

1. Remove everything from feeder and rinse thoroughly with fresh water. Never mix KEM-TEK 3-INCH CHLORINATING TABLETS with any other sticks, tablets or any other chemicals.
2. Fill the feeder with tablets.
3. Adjust the feed rate so as to maintain a chlorine residual of 1.0–1.5 ppm.
4. Check the pH of the pool water daily, adding [KEM-TEK pH MINUS or pH PLUS] or equivalent products as necessary to maintain pH in 7.2–7.6 range.
5. If the pool is not stabilized with [KEM-TEK STABILIZER CONDITIONER] or equivalent, add stabilizer to a concentration of 30 ppm. Consult the label on [KEM-TEK STABILIZER CONDITIONER] or equivalent product for exact instructions.

[Reader's Note: Throughout this label, product names for other similar products (i.e., pH adjusters, stabilizers, chlorinators etc.) may be substituted as appropriate.]

POOL STARTUP AND HEAVY BATHER LOAD: At the start of the swimming season, in filled pools, upon filling a pool, and after heavy swimmer load, super-chlorination (shocking) is necessary. Super-chlorination is the addition of two or three times the normal amount of chlorine to oxidize and remove unwanted organic and inorganic material. The end result is the establishment of a chlorine residual of 1.0–1.5 ppm. A liquid or granular chlorinating agent, including KEMKLOR II, SHOCK QUICK, SUPER SHOCK QUICK or ALL-IN-ONE CHLORINATING GRANULES which will dissolve rapidly, must be used for super-chlorination. Consult the labels on KEMKLOR II, SHOCK QUICK, SUPER SHOCK QUICK or ALL-IN-ONE CHLORINATING GRANULES for super-chlorination instructions. Do not use pool during super-chlorination until the chlorine residual is less than 3.0 ppm.

Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion.

[The following are to be used with different alternate brand names and are different forms of the same product:]

USE OF THE FLOATING CHLORINATOR

Do not use in spas, hot tubs or in water temperatures above 90°F.

1. To use this container, cut off the two large knobs nearest the cap (at opposite sides). Locate and remove the small knob which corresponds to the pool capacity in gallons (Fig. 1). Holding the FLOATING CHLORINATOR neck down, shake lightly to level contents. FLOATING CHLORINATOR CONTAINS 1" CHLORINATING TABLETS (slow dissolving, stabilized and highly concentrated).
2. Place FLOATING CHLORINATOR into the pool water neck down (Fig. 2). Monitor chlorine feed setting using a reliable test kit: chlorine residual should read from 1 to 1.5 ppm. To increase chlorine residual, cut off the small knob for the next higher pool capacity. As part of routine maintenance, superchlorinate regularly using an unstabilized chlorine product such as [KEMKLOR

[In the text "this product" may be substituted for 3-Inch Chlorinating Tablets name]

[[Information in brackets] is optional or instructional; italics in brackets indicate instructions not part of labeling.]

II, SHOCK QUICK, SUPER SHOCK QUICK or ALL-IN-ONE CHLORINATING GRANULES]. Adjust pH as needed with [KEM-TEK pH MINUS or pH PLUS] keeping it between a 7.2 to 7.6 reading. To minimize chlorine consumption, add [KEM-TEK STABILIZER CONDITIONER] as needed to give a concentration of 30 ppm. Follow the instructions provided on these labels.

- 3. FLOATING CHLORINATOR tilts when empty.

GRANULAR ALGAECIDE (BLACK ALGAE TREATMENT)

GRANULAR ALGAECIDE is a potent algaecide, which is effective against all algae when used as directed. It is especially effective against so-called "black" algae, which appears as spots on the walls and bottom of pools.

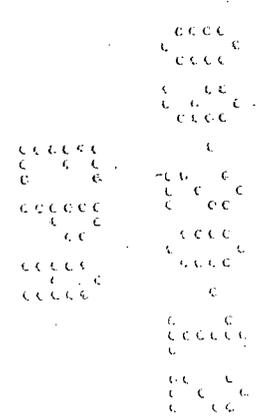

- 1. Check pH of water. Adjust pH (if necessary) to 7.2-7.6 using a reliable test kit and soda ash or dry pool acid.
2. Similarly, check available chlorine and adjust (if necessary) to a residual of 1.0 to 1.5ppm using GRANULAR ALGAECIDE dry or liquid chlorinating product.
3. Place one tablespoon of GRANULAR ALGAECIDE directly on the black spots (if on the pool bottom). If the spots are on the pool walls, place a tablespoon of GRANULAR ALGAECIDE on a 6" square cloth, tie and hang from the edge of the pool by the spot.
4. Wait 24 to 36 hours. Brush spots off with a wire algae brush and repeat steps 1 through 3 until algae free.

NOTE: Do not allow contact of this product on the following pool surfaces: vinyl, metallic, fiberglass, painted or colored plaster. Product will bleach color out.

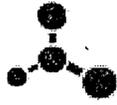

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

STORAGE: Keep product in tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. In case of decomposition, isolate container in open area if possible, and flood with large amounts of water. CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill this container. IF EMPTY: Place in trash [collection] or offer for recycling if available. IF PARTLY FILLED: Call your local solid waste agency for disposal instruction. Never place unused product down any indoor or outdoor drain.
