KEM TEK DRY ALGAECIDE is a potent algaecide which is affective against all algae when used as directed. It is especially effective against so called "black algae" which appear as spots on the walls and bottom of pools.

DIRECTIONS

- 1. Check pH of pool. Adjust pH (if necessary) to 7.2-7.6 using a suitable test kit and soda ash or dry acid.
- 2. Similarly, check available chlorine and adjust (if necessary) to a residual of 1.0 to 1.5 ppm using your regular swimming pool chlorine, be it dry or liquid.
- 3. Place one tablespoon of granular KEM TEK DRY ALGAE-CIDE directly on black spots (if on bottom). If the spots

DANGER: Corrosive, causes eye damage, may cause burns on moist or broken skin or on clothing. May be harmful or fatal if swallowed. Do not breathe dust.

Strong oxidizing agent. Use only with large quantities of water. Mixing of KEM TEK DRY ALGAECIDE with any other materials including other pool chemicals may result in fire or explosion. Will burn with the evolution of hazardous and irritating chlorine containing gases. Keep away from heat and moisture. Store in covered container in cool, dry place. Thoroughly rinse empty container with water before discarding. In case of fire: If possible isolate container in well-ventilated area and flood with large volumes of water.

FIRST AID: Internally—feed gruel or cooked cereal, followed by olive oil or cooking oil. Externally or in

Dosage in Ounces	17/8 - 33/4	21/2 - 5	31/8 - 61/4	3¾ - 7½	43/8 - 83/4

DANGER: KEEP OUT OF REACH OF CHILDREN

Corrosive. Causes eye damage. Do not get in eyes or on skin. Protect eyes when handling. Do not breathe dust. May cause skin, nose and throat irritation. May be fatal if swallowed. May cause burns to broken skin.

FIRST AID: In case of personal contact remove excess material and flush skin or eyes with cold water for at least 15 minutes. For eyes get medical attention. Clean contaminated clothing before reuse. If swallowed feed grues or cooked cereal followed by olive oil or cooking oil. Call a physician immediately.

DANGER: STRONG OXIDIZING AGENT. Moisqure contamination may liberate irritating and hazardous chlorine-containing gases. In case of decomposition, if possible isolate container in open air or well-ventilated area. Flood with large volume of water if necessary.

Mix only with water. Do not mix with other pool chemicals. Use only dry clean measuring utensils. Store in a cool, dry place. Keep closed when not being used.

Do not reuse container. Rinse empty container thoroughly with water and discard.

ENVIRONMENTAL PRECAUTIONS: This product is toxic to fish. Treated pool effluent water should not be discharged where it will drain into lakes, streams, ponds or public water. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.
