OFFICE OF CHEMICAL SAFETY AND POLLUTION PREVENTION

August 2, 2012

Cristina Griffin Delta Analytical Corporation c/o KIK Pool Additives Inc 12510 Prosperity Drive Suite 160 Silver Spring MD 20904

Subject Kem Tek Kemklor II

EPA Registration Number 7616 45 Applications Date May 30 2012 EPA Receipt Date June 1 2012

Dear Ms Griffin

The following label amendment submitted in connection with registration under section of the Federal Insecticide Fungicide and Rodenticide Act (FIFRA) as amended is acceptable with the conditions listed below

Proposed Amendments

- > Update first aid statement
- > Update the list of alternate brand names (ABNs)
- Adding new ABN (Leslie's Swimming Pool Supplies Liquid Chlorinator)
- > Add reader s notes and optional language
- Add new company name KIK Pool Additives Inc
- > Update environmental hazards to clarify for over and under 5 gallons
- > Update establishment numbers
- > Add optional label claim
- Make minor changes to Directions for Use
- > Update storage and disposal statement

General Label Conditions & Comments

- The new ABN Leslie's Swimming Pool Supplies Liquid Chlorinator is acceptable Kemklor
- The ABN Kem Tek II Swimming Pool Chlorinating liquid which as was acceptable on March 26 1999 will be added to PPLS

3 For consistence and clarity the Agency prefers that the first aid emergency instructions and the note to physician be group together and place at the bottom of the first aid statement. In addition the first aid statement must be revised so that it reads as follows

IF IN EYES Hold eye open and rinse slowly and gently with water for 15 20 minutes Remove contact lenses if present after the first 5 minutes then continue rinsing Call a poison control center or doctor for treatment advice

IF ON SKIN OR CLOTHING Take off contaminated clothing Rinse skin immediately with plenty of water for 15 20 minutes Call a poison control center or doctor for treatment advice IF SWALLOWED Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to by a poison control center or doctor. Do not give anything to an unconscious person. IF INHALED Move person to fresh air. If person is not breathing call 911 or an ambulance, then give artificial respiration preferably mouth to mouth if possible. Call a poison control center or doctor for further treatment advice.

Refer to PR Notice 2001 1 for detailed information

4 Delete the term Professional from the Optional Label Claims/location optional list

A stamped accepted copy of the label with conditions is enclosed for your record Submit one copy of your final printed labeling before distributing or selling this product bearing the revised labeling. This amendment and a copy of this letter have been placed in this product s file for future reference

Should you have any questions or comments concerning this letter please contact Adam Heyward via email at <u>heyward adam@epa gov</u> or by telephone at (703) 347 0274 during the hours of 6 00 am to 2 30 pm EST When submitting information or data in response to this letter a copy of this letter should accompany the submission to facilitate processing

Sincerely

Monisha Harris

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling

NOTE This product degrades with age. Use a chlorine test kit and increase dosage as necessary to obtain the required level of available chlorine.

SWIMMING POOL WATER DISINFECTION Add 13 fi oz of this product for each 10 000 gal of water to yield an available chlorine residual of 1ppm Maintain 1 0 to 3 0 ppm in unstabilized pools and 1 0 to 1 5 ppm in stabilized pools. To start up or superchlorinate (shock treatment) a pool add 64 to 128 ft oz. of this product for each 10 000 gal of water to yield 5 to 10 ppm chlorine residual DO NOT enter pool until residual is less than 4 0 ppm. Add this product at night while running pump and filter. Check in the morning and adjust as necessary.

IMPORTANT maintain pH between 7 2 to 7 6 Maintain alkalinity between 50 to 100 ppm

WINTERIZING POOLS While water is still clear and clean apply 40 ft oz of product per 10 000 gallons, while filter is running, to obtain a 3 ppm available chlorine residual, as determined by a suitable test kit. Gover pool, prepare heater filter and heater components for winter by following manufacturers instructions

STORAGE AND DISPOSAL

Do not contaminate water food or feed by storage disposal or cleaning of equipment STORAGE Keep product in tightly closed container when not in use. Store in cool dry area away from direct sunlight and heat to avoid deterioration. In case of spill, flood area with large quantities of water PRODUCT DISPOSAL. Product or rinsates that cannot be used must be diluted with water before disposal in a sanitary sewer. CONTAINER HANDLING. Nonrefillable container. Do not reuse or refill this container. Offer for recycling if available or place in trash [collection.]
