PRODUCT #230

The presence of algae in swimming pools is objectionable and can be difficult to remove. AlgyBar 230™ helps prevent the growth of chlorine-resistant algae, (such as mustard and "black" algae). It also acts as an added defense against algae due to low chlorination periods. Once started, algae greatly increases chlorine demand and the associated increased cost.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

**FRESHLY FILLED AND/OR
 ALGAE-FREE SWIMMING POOLS:**

Add 16 ounces of Algy Bar 230™ per 10,000 gallons pool water. Add 4 to 6 ounces (per 10,000 gallons) weekly as a maintenance dose to prevent algae growth through the swimming season.

VISIBLE ALGAE GROWTH:

Super-chlorinate with a fast-acting, unstabilized chlorinating product (such as Kem Tek Shock™) to a chlorine reading of 5 ppm. Remove all debris by vacuuming or sweeping and filtering. In order to aid in the removal of the fine particles resulting from the affected algae, the use of Kem Tek Water Clarifier is recommended. Add an initial dose of 32 ounces of Algy Bar 230™ per 10,000 gallons of water to rid the water of the remaining chlorine-resistant algae. Thereafter, add 4 to 6 ounces (per 10,000 gallons) weekly during swimming season to prevent regrowth of algae.

NOTE:

In order to ensure maximum effectiveness of Algy Bar 230™ (and all other swimming pool chemicals), always maintain pH at 7.2 to 7.8 and a free-chlorine residual of 1 to 2 ppm. Measure by using a reliable test kit.

PRECAUTIONARY STATEMENTS-HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed. Avoid breathing vapors. Avoid contact with skin, eyes, or clothing.

FIRST AID: If swallowed, promptly drink a large quantity of milk, egg whites, gelatin solution, or large quantities of water. Immediately call POISON CENTER or a physician. If in eyes, rinse thoroughly with cold water for 15 minutes. If irritation persists, get medical attention.

CHEMICAL HAZARDS: Mildly corrosive. Do not mix with acids, ammonia, oxidizers, bleach or other household chemicals.

ENVIRONMENTAL HAZARDS: This product is toxic to fish. Keep out of lakes, streams, ponds and public waters. For guidance contact the regional office of the EPA.

STORAGE AND DISPOSAL:

Store this product in a cool dry place, away from direct sunlight and heat. In case of spill, flood areas with large quantities of water. Product or rinsates that cannot be used, should be diluted with water before disposal in a sanitary sewer. Do not reuse container; place in trash collection. Do not contaminate food or feed by storage, disposal or cleaning of equipment.
