DIRECTIONS FOR USE

It is a violation of federal law to use this product inconsistent with its labeling

KEM-TEK ALGY BAR 230 is used to control the growth of algae in swimming pools, exterior spas, whirlpools, spas, whirlpools, hot tubs, decorative fountains and ponds that do not contain fish. For maximum effectiveness pools, spas, whirlpools, hot tubs, decorative fountains and ponds containing heavy growth of algae should be cleaned prior to using KEM-TEK ALGY BAR 230.

For pools having just visible algae growth add an initial dose of 23.5 to 36.4 fluid ounces of KEM-TEK ALGY BAR 230 per 10,000 gallons of water and remove settled algae debris by cleaning. For treatment of a freshly cleaned and filled pool add initially 12.8 to 23.5 fluid ounces of KEM-TEK ALGY BAR 230 per 10,000 gallons of water. Subsequent additions of 4.3 to 8.6 fluid ounces of KEM-TEK ALGY BAR 230 per 10,000 gallons of water should be made every 5 to 7 days after initial treatment of maintenance.

Spas, whirlpools, hot tubs, decorative fountains, and ponds having just visible algae growth require an initial dose of 2 to 4 fluid ounces of KEM-TEK ALGY BAR 230 per 1,000 gallons of water. For treatment of freshly filled spas, whirlpools, hot tubs, decorative fountains or ponds add initially 1 to 2 fluid ounces of KEM-TEK ALGY BAR 230 per 10,000 gallons of water. Subsequent additions of 0.5 to 0.8 fluid ounces of KEM-TEK ALGY BAR 230 should be made every 5 to 7 days after initial treatment for maintenance.

KEM-TEK ALGY BAR 230 is compatible with those chemicals normally used to treat pools and spas and is effective at both acid and alkaline pH. KEM-TEK ALGY BAR 230 can be used in pools and spas treated with chlorine chemicals and may reduce the amount of those chemicals normally required. However, do not mix KEM-TEK ALGY BAR 230 with concentrated dry or liquid chlorine products.

PRECAUTIONARY STATEMENTS - HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed. Avoid breathing vapors. Avoid contact with skin, eyes, or clothing.

FIRST AID	
If Swallowed	<ul style="list-style-type: none"> Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water, if able to swallow. DO NOT induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.
If In Eyes	<ul style="list-style-type: none"> Hold eye open and flush with plenty of water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
If On Skin or Clothing	<ul style="list-style-type: none"> Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
If Inhaled	<ul style="list-style-type: none"> Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration preferably mouth-to-mouth if possible. Call a poison control center or doctor for treatment advice.

Have the product container or label with you when using a poison control center or doctor or going for treatment.

ENVIRONMENTAL HAZARDS

This product is toxic to fish.

STORAGE AND DISPOSAL

STORAGE: Keep product in tightly closed container when not in use. Store in cool, dry, well-ventilated area away from heat or open flame. **DISPOSAL:** If empty: Do not reuse container. Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.
