DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling

ALGY BAR 230 is used to control the growth of algae in swimming pools, exterior spas, whirlpools, hot tubs, decorative fountains and ponds that do not contain fish. For maximum effectiveness, clean heavy growth of algae prior to using ALGY BAR 230 in pools, spas, whirlpools, hot tubs, decorative fountains, and ponds that do not contain fish.

[Use one or more of the following sets of directions]

TO CLOSE POOL FOR WINTER Add 23.5 to 36.4 fluid ounces of ALGY BAR 230 per 10,000 gallons. Operate the pump system 4-8 hours (minimum) after application.

FOR POOLS HAVING JUST VISIBLE ALGAE GROWTH [or TO OPEN /CLOSE POOL] Add an initial dose of 23.5 to 36.4 fluid ounces of ALGY BAR 230 per 10,000 gallons of water and remove settled algae debris by cleaning. For treatment of freshly cleaned and filled pool, add initially 12.8 to 23.5 fluid ounces of ALGY BAR 230 per 10,000 gallons of water. Subsequent additions of 4.3 to 8.6 fluid ounces of ALGY BAR 230 per 10,000 gallons should be made every 5 to 7 days after initial treatment for maintenance.

SPAS, WHIRLPOOLS, HOT TUBS, DECORATIVE FOUNTAINS AND PONDS HAVING JUST VISIBLE ALGAE GROWTH Require an initial dose of 2 to 4 fluid ounces of ALGY BAR 230 per 1,000 gallons of water. For treatment of freshly cleaned and filled spas, whirlpools, hot tubs, decorative fountains or ponds, add initially 1 to 2 fluid ounces of ALGY BAR 230 per 1,000 gallons of water. Subsequent additions of 0.5 to 0.8 fluid ounces of ALGY BAR 230 should be made every 5 to 7 days after initial treatment for maintenance. ALGY BAR 230 is compatible with those chemicals normally used to treat pools and spas and is effective at both acid and alkaline pH. ALGY BAR 230 can be used in pools and spas treated with chlorine chemicals and may reduce the amount of those chemicals normally required. However, do not mix ALGY BAR 230 with concentrated dry or liquid chlorine products.

STORAGE AND DISPOSAL

STORAGE Keep product in tightly closed container when not in use. Store in a cool, dry, well-ventilated area away from heat or open flame. **CONTAINER HANDLING** Nonrefillable container. Do not reuse or refill this container. **IF EMPTY** Place in trash [collection] or offer for recycling if available. **IF PARTLY FILLED** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

See back and side panels and individual
containers for first aid statements
and other precautions

[Note Kit is to include EPA Reg No 7616-57 and 7616-78 labels fully visible on outside kit box as well as on the corresponding container inside the box]

[In the text this product or alternate brand name may be substituted for name] [[Information in brackets] is optional or instructional italics in brackets indicate instructions not part of labeling]

[Optional Kit Label]

[The following may be placed on front, side, or back panel of box and/or as an insert]

STEPS FOR USING WINTERIZING KIT

- (1) Clean pool by skimming brushing and vacuuming thoroughly
- (2) Add Aqua Guard Metal Out [for similar brand name for non registered product] per dosage in directions for use
- (3) Balance pool water. Adjust pH to 7.2-7.6 Adjust Alkalinity to 80-120ppm
- (4) Shock (superchlorinate) pool Follow [insert ABN for EPA Reg No 7616-78] dosage in directions for use
- (5) Allow the chlorine level to drop below 5.0 ppm before adding algaecide and using pool cover
- (6) When chlorine level reaches 3 ppm add [insert ABN for EPA Reg No 7616-57] per dosage in directions for use
- (7) Lower pool water level 12"-18" below the skimmer for mesh covers and 3" - 6" below the tile for solid floating covers
- (8) Winterize the pool plumbing and equipment properly according to region weather and manufacturer's instructions
