RE: Addition of Alternate Brand Name: Kem Tek Algacide & Clarifier to
Kem Tek Algy Bar 206; EPA Reg. No. 7616-58

Explanation for Section-II of EPA form 8570-1:

"Notification of update of Environmental Hazards Statement per Notice 98-10"

"This notification is consistent with the provisions of PR Notice 98-10 and EPA regulation at 40 CFR 152.46, and no other changes have been made to the labeling or the Confidential Statement of Formula of this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make false statement to EPA. I further understand that if this notification is not consistent with the terms of PR Notice 98-10 and 40 CFR 152.46, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA."

KEM TEK ALGAECIDE & CLARIFIER

SAVE A CHILD

FENCE THE POOL

PRODUCT #306

0 41596 00306 8

The presence of algae in swimming pools is objectionable and can be difficult to remove. ALGAECIDE & CLARIFIER helps prevent the growth of chlorine-resistant algae (such as mustard and "black" algae). It also acts as an added defense against algae due to low chlorination periods. Once started, algae greatly increases chlorine demand, and the associated chlorine costs.

Si usted no entiende la etiqueta, busque a alguien para que se la explique a usted en detalle.

Directions For Use

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Freshly Filled And/Or Algae-Free Swimming Pools:

Add 69 to 97 ounces of ALGAECIDE & CLARIFIER per 10,000 gallons pool water. Add 24 to 48 ounces (per 10,000 gallons) weekly as a maintenance dose to prevent algae growth through the swimming season.

Visible Algae Growth:

Add an initial dose of 97 to 150 ounces of ALGAECIDE & CLARIFIER (per 10,000 gallons of pool water) to rid the water of algae. Thereafter apply weekly maintenance dose during swimming season to prevent regrowth of algae.

Pool Maintenance Tips:

In order to ensure maximum effectiveness of ALGAECIDE & CLARIFIER super chlorinate with fast-acting, chlorinating product (such as KEM-TEK KEMKLOR II™ CHLORINATING LIQUID, KEM-TEK SHOCK QUICK™ or KEM-TEK SUPER SHOCK QUICK™) to chlorine reading of 5 ppm. Do not use until the chlorine residual has dropped to 3ppm. Remove all debris by vacuuming or sweeping and filtering. In order to aid in the removal of the fine particles resulting from the affected algae the use of KEM-TEK™ WATER CLARIFIER as recommended. Always maintain pH at 7.2 to 7.6 and a free chlorine residual of 1 to 2 ppm using a reliable test kit.

Storage And Disposal:

STORAGE: Keep product in tightly closed container when not in use. Store in a cool, dry, well-ventilated area away from heat or open flame.

DISPOSAL: If empty: Do not reuse container. Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

Precautionary Statement: Hazards to Humans and Domestic Animals.

CAUTION: Harmful if swallowed. Avoid breathing vapors. Avoid contact with skin, eyes, or clothing.

Environmental Hazards: This pesticide is toxic to fish.

Chemical Hazards: Mildly corrosive. Do not mix with acid, ammonia, oxidizers, bleach, or other household chemicals.

FIRST AID

If Swallowed: Call a poison control or doctor immediately for treatment advice. Have person sip a glass of water, if able to swallow. DO NOT induce vomiting unless told to do so by a poison control center or a doctor. Do not give anything by mouth to an unconscious person.

If In Eyes: Hold eye open and flush with plenty of water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If On Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

If Inhaled: Move person to fresh air. If the person is not breathing, call 911 or an ambulance, then give artificial respiration preferably mouth-to-mouth if possible. Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling poison control center or doctor, or going for treatment.
