Subject: Product Name: Algy Bar™ 206
EPA Reg. Number: 7616-58
Application Date: 04-Sep-2008
EPA Receipt Date: 15-Sep-2008

Dear Registrant:

The following amendment, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, is acceptable. A copy of the stamped copy is enclosed for your record.

If you have further questions concerning this letter, please contact me by telephone at (703) 308-6422 or by e-mail at heyward.adam@epa.gov during the hours of 8:00 am to 4:00 pm EST. When submitting information or data in response to this letter, a copy of this letter should accompany the submission to facilitate processing.

Sincerely,

A handwritten signature in black ink, appearing to read "Adam Heyward", is located below the "Sincerely," text.

ACCEPTED

SEP 29 2008

Under the Federal Insecticide, Fungicide, and
Rodenticide Act as amended, for the
pesticide registered under
EPA Reg. No. 7616-58

ALGY BAR™ 206

For Prevention and Treatment of Pool Algae
Non-Foaming • Advanced Formula

ACTIVE INGREDIENT: Poly[oxyethylene (dimethyliminio) ethylene (dimethyliminio) ethylene dichloride].....	6.0%
INERT INGREDIENTS:.....	94.0%
TOTAL:.....	100.0%

KEEP OUT OF REACH OF CHILDREN

CAUTION

See back panel for first aid statement and other precautions.

NET CONTENTS: 1 GALLON (128 FL. OZ.)

The presence of algae in swimming pools is objectionable and can be difficult to remove. Algy Bar™ 206 helps prevent the growth of chlorine-resistant algae, (such as mustard and "black" algae). It also acts as an added defense against algae due to low chlorination periods. Once started, algae greatly increases chlorine demand and the associated increased cost.

Spa Maintenance Tips:

In order to insure the maximum effectiveness of Algy Bar™ 206 super-chlorinate with sufficient chlorinating product (such as Spa Kem Granules™) to produce a chlorine reading of 5 to 10 ppm. Remove all debris from the water by sweeping and filtering or vacuuming. In order to aid in the removal of the very fine particles resulting from the affected algae, the use of Spa Kem Water Clarifier is recommended. Always maintain pH at 7.2 to 7.6 and a free chlorine residual of 2 to 3 ppm using a reliable test kit.

Pool Maintenance Tips:

In order to insure the maximum effectiveness of Algy Bar™ 206 super-chlorinate with sufficient chlorinating product (such as Kem Tek Shock™) to a chlorine of 5 ppm. Remove all debris from the water by vacuuming or sweeping and filtering. In order to aid in the removal of the very fine particles resulting from the affected algae, the use of Kem Tek Water Clarifier is recommended. Always maintain pH at 7.2 to 7.6 and a free chlorine residual of 1 to 2 ppm using a reliable test kit.

Directions For Use

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Freshly Filled and/or Algae-Free Spas:

Add 3 to 5 ounces of Algy Bar™ 206 per 500 gallons of water. Add 1 to 3 ounces weekly as a maintenance dose to prevent the growth of algae.

Visible Algae Growth:

Add an initial dose of 5 to 8 ounces of Algy Bar™ 206 per 500 gallons of water. Thereafter add 1 to 3 ounces (per 500 gallons) weekly to prevent re-growth of algae.

Freshly Filled and/or Algae-Free Swimming Pools:

Add 69 to 97 ounces of Algy Bar™ 206 per 10,000 gallons of pool water. Add 24 to 48 ounces (per 10,000 gallons) weekly as a maintenance dose to prevent algae growth through the swimming season.

Visible Algae Growth:

Add an initial dose of 97 to 150 ounces of Algy Bar™ 206 per 10,000 gallons of water to rid the water of algae. Thereafter add 24 to 48 ounces (per 10,000 gallons) weekly during the swimming season to prevent re-growth of algae.

ORNAMENTAL POND TREATMENT:

Effectively controls many types of green or green water algae, string or hair algae and blanketweed in ponds that contain live plants. Controls existing algae and helps resolve additional algae blooms. Keeps ornamental ponds and water gardens clean & clear. Can be used in ponds with fish and plants.

Add 1 teaspoon (5 ml) of Algy Bar™ 206 for every 50 gallons (190 L) of pond/fountain water. Thoroughly mix Algy Bar™ 206 into pond/fountain by adding near the pump outflow, water-fall, or aeration device. Algy Bar™ 206 can be mixed in a bucket if pond/fountain water. Repeat dose every three days until algae is controlled. Be prepared to siphon out dead filamentous algae. Once algae growth is under control, add one dose every 5 days. Weekly doses of growth and reduce

pond/fountain maintenance. Caution: Do not use Algy Bar™ 206 with crustaceans, including crabs, shrimps, freshwater Shrimp and freshwater lobsters.

Warm Weather Caution: Before using Algy Bar™ 206, make certain that the pond has vigorous aeration – i.e., a fountain, waterfall, or aeration device to avoid fish loss due to low oxygen levels. When algae is removed by the filter or settles to the bottom of the pond/fountain, the oxygen level may drop to a harmful level if adequate aeration is not provided. Therefore, when using Algy Bar™ 206 during warm summer months, adequate aeration is required. Do not shut pond pumps and aeration devices off at night.

Compatibility: Algy Bar™ 206 can be used in ponds with live plants. Do not use with crustaceans, including crabs, shrimp and freshwater lobsters.

For ornamental pond use only where all water is contained without any out flow.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS:

CAUTION: Harmful if swallowed. Avoid breathing vapors. Avoid contact with skin

PHYSICAL OR CHEMICAL HAZARDS:

Mildly corrosive. Do not mix with acids, ammonia, oxidizers, bleach or other household chemicals.

FIRST AID	
If Swallowed	<ul style="list-style-type: none">• Call a poison control center or doctor immediately for treatment advice.• Have person sip a glass of water, if able to swallow.• DO NOT induce vomiting unless told to do so by a poison control center or doctor.• Do not give anything by mouth to an unconscious person.
If In Eyes	<ul style="list-style-type: none">• Hold eye open and flush with plenty of water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes; then continue rinsing eye.• Call a poison control center or doctor for treatment advice.
If On Skin or Clothing	<ul style="list-style-type: none">• Take off contaminated clothing.• Rinse skin immediately with plenty of water for 15-20 minutes.• Call a poison control center or doctor for treatment advice.
If Inhaled	<ul style="list-style-type: none">• Move person to fresh air.• If person is not breathing, call 911 or an ambulance, then give artificial respiration preferably mouth-to-mouth if possible.• Call a poison control center or doctor for treatment advice.
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For assistance call 1-800-767-7665	

ENVIRONMENTAL HAZARDS: This product is toxic to fish.

STORAGE AND DISPOSAL:

STORAGE: Keep product in tightly closed container when not in use. Store in cool, dry, well-ventilated area away from heat or open flame. **DISPOSAL:** If empty: Do not reuse container. Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.
