<p>US ENVIRONMENTAL PROTECTION AGENCY OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (FS 767) WASHINGTON, DC 20460</p> <p>NOTICE OF PESTICIDE: <input type="checkbox"/> REGISTRATION <input checked="" type="checkbox"/> REREGISTRATION</p> <p><i>(Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended)</i></p>	<p>EPA REGISTRATION NO. 7616-60</p> <p>TERM OF ISSUANCE</p>	<p>DATE OF ISSUANCE 30 JUN</p>
<p>NAME OF PESTICIDE PRODUCT KEM-TEK CHLORI-BUOY</p>		
<p>NAME AND ADDRESS OF REGISTRANT (Include ZIP code)</p> <p>Chem Lab Products, Inc. 5160 E. Airport Drive Ontario, CA 91761</p>		
<p>NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.</p>		
<p>On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.</p> <p>A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.</p> <p>Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.</p> <p>Based on your response to the Reregistration Eligibility Document, EPA has reregistered the above named product subject to the comments recorded in the succeeding paragraph. This action is taken under the authority of section 4(g)(2)(C) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. Reregistration under this section does not eliminate the need for continual reassessment of pesticides. EPA may require submission of data at any time to maintain the registration of your product.</p> <p>Make the following labeling changes before you release the product for shipment:</p> <ol style="list-style-type: none"> 1. Refer to the enclosed of the Isocyanurate RED Attachment A for the necessary revisions to the Precautionary Statements of the subject product label. 2. On the submitted CSF, the nominal concentration of 99% should fall between the upper and lower certified limits, not equal to the lower limit. Please revise the lower limit to 98% so that the label does not have to be changed. <p>A stamped copy of the product label is enclosed for your records.</p> <p><input type="checkbox"/> ATTACHMENT IS APPLICABLE</p>		
<p>SIGNATURE OF APPROVING OFFICIAL</p>		

Submit one copy of the final printed labeling before releasing the product in channels of trade with the revised labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

ISOCYANURATE RED ATTACHEMENT A

LABELING: (Statements are based on review of referenced acute toxicity data)

1. The signal word is "DANGER"
2. Revise the Precautionary Statements to read:

CORROSIVE: Causes irreversible eye damage and skin burns. May be fatal if absorbed through skin. May be fatal if inhaled. Do not breathe dust or spray mists. Irritating to nose and throat. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield, protective clothing and rubber gloves when handling this product. Wash thoroughly with soap and water after handling and before eating, drinking or using tobacco. Remove contaminated clothing and wash before reuse.

3. Revise the Statement of Practical Treatment to read:

STATEMENT OF PRACTICAL TREATMENT.

IF SWALLOWED: Drink promptly large quantities of water. Do not induce vomiting. Avoid alcohol. Never give anything by mouth to an unconscious person. Call a physician or poison control center immediately.

IF IN EYES: Hold eyelids open and flush with a steady, gentle stream of water for 15 minutes. Get medical attention.

IF ON SKIN: Wash with plenty of soap and water. Get medical attention.

IF INHALED: Remove victim to fresh air. If not breathing, give artificial respiration, preferably, mouth-to-mouth. Get medical attention.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

Chlori-buoy™

**AUTOMATIC CHLORINATOR • WORKS UNDER COVER
SIMPLE TO USE—REFILLABLE—TILTS WHEN EMPTY**

For control of bacterial and algae in swimming pools
ACTIVE INGREDIENT:
 Trichloro-s-triazinetrione 98%
INERT INGREDIENTS 1%
AVAILABLE CHLORINE 88%

KEEP OUT OF REACH OF CHILDREN

**NET CONTENTS 4 LBS.
KEM TEK 1" Chlorinating Tablets**

DANGER
 See back panel for
 first aid statement
 and other precautions.

The CHLORI-BUOY™ is another quality product of the KEM TEK™ AQUA-GAURD® series.

 Corsicana, Texas 75110

POOL STARTUP AND HEAVY BATHER LOAD: At the start of the bathing season, in filled pools, upon filling a pool, and after heavy bathing load, superchlorination is necessary. Superchlorination is the addition of two or three times the normal amount of chlorine to oxidize and remove unwanted organic and inorganic material. The end result is the establishment of a chlorine residual of 1.0-1.5 ppm. A granular chlorinating agent, such as SHOCK™ or KEMEX™, which will dissolve rapidly, should be used for superchlorination. Consult the labels on SHOCK™ or KEMEX™ for superchlorination instructions. The pool should not be used during superchlorination until the chlorine residual is less than 2.0 ppm.

DIRECTIONS FOR USE OF FLOATING CHLORI-BUOY™

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

DANGER: Never mix this concentrated chemical with any other substance except generous amounts of water. See CHEMICAL HAZARDS.

1. To use this container as a floating chlorinator, cut off the two large knots nearest the cap (at opposite sides). Locate and remove the small knob which corresponds to the pool capacity in gallons. Holding the CHLORI BUOY™ neck down, firmly shake a few times to level contents. CHLORI BUOY™ contains KEM TEK™ 1" CHLORINATING TABLETS (slow dissolving, stabilized and highly concentrated).

2. Place CHLORI BUOY™ into pool water neck down. Monitor chlorine level setting using a reliable test kit. Chlorine residual should read 1 to 1.5 ppm. To increase chlorine residual cut off the small knob for the next higher pool capacity. As part of routine maintenance superchlorinate regularly using a fast dissolving, unstabilized chlorine product such as KEM TEK SHOCK™. Adjust pH as needed with KEM TEK pH PLUS™ or M.V.S.™ keeping it between 7.2 and 7.6. To minimize chlorine consumption, add KEM TEK™ CHLORINE STABILIZER as needed to give a concentration of 30 ppm. Follow the instructions provided on these product labels.

NOTE: Do not permit tablets or strong effluent from tablets to contact plastic liners, metallic parts, painted or colored pool surfaces.

3. CHLORI BUOY™ tilts when empty. Drain all water and remove safety cap to refill. Use KEM TEK™ 1" CHLORINATING TABLETS only. NEVER MIX WITH ANY OTHER CHEMICALS OR TABLETS. Refill with up to 4 lbs. of tablets. DO NOT OVERFILL. When CHLORI BUOY™ shows signs of brittleness or cracking it should be replaced.

STORAGE AND DISPOSAL: Keep product in tightly closed container when not in use. Store in a cool, dry well ventilated area away from heat or open flame. In case of decomposition isolate container in open area if possible, and flood with large amounts of water. Do not reuse empty container. Rinse empty container thoroughly with water to dissolve all material before discarding. Place in trash collection or dispose in approved landfill area.

EPA Reg. No. 7616-60 EPA Est. No. 7616-CA-1; 7616-FL-1; 7616-TX-1

PRACTICAL TREATMENT

IF SWALLOWED, drink promptly a large quantity of water. IF IN CONTACT WITH SKIN, wash with plenty of water. IF IN CONTACT WITH EYES, flush with plenty of water for 15 minutes. Get medical attention if irritation persists. IF ON SKIN, immediately flush off excess chemical and flush with plenty of water. Wash clothing before reuse. Get medical attention if irritation persists. IF INHALED, remove person to fresh air. Get medical attention if irritation persists. NOTE TO PHYSICIAN: Possible mucosal damage may occur.

**PRECAUTIONS
HAZARDS TO HUMANS**

DANGER: CORROSIVE. CAUSES EYE AND SKIN DAMAGE. IRRITATING. WILL BURN WITH THE EVOLUTION OF CHLORINE AND OXYGEN. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and gloves. Wash thoroughly with soap and water after use.

ENVIRONMENTAL

This pesticide is toxic to fish. Do not discharge effluent containing this product into sewer systems without previous contact with your State Water Board or Regional Office of the EPA.

PHYSICAL OR CHEMICAL

STRONG OXIDIZING AGENT. WILL BURN WITH THE EVOLUTION OF CHLORINE AND OXYGEN. WATER SLOWLY LIBERATES IRRITATING AND HAZARDOUS CHLORINE GAS WITH LIBERATION OF HARMFUL GASES. Mix only with water. Use clean dry utensils. Do not add this product to other products. Such use may cause a violent reaction with the evolution of heat and explosion. IN CASE OF FIRE, if possible isolate container in open area. IN CASE OF CONTAMINATION OR DECOMPOSITION, do not
