

US ENVIRONMENTAL PROTECTION AGENCY OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (TS-767) WASHINGTON, DC 20460	EPA REGISTRATION NO. 7616-67	MAR 31 1994
	TERM OF ISSUANCE	
NOTICE OF PESTICIDE: <input checked="" type="checkbox"/> REGISTRATION <input type="checkbox"/> REREGISTRATION <i>(Under the Federal Insecticide, Fungicide and Rodenticide Act, as amended)</i>		NAME OF PESTICIDE PRODUCT Kem Tek Spa Kem Bromi-Buoy

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Chem Lab Products, Inc.
 5160 E. Airport Drive
 Ontario, CA 91761

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/re-registration of your product under FIFRA section 3(c)(5) and section 4 when the Agency requires all registrants of similar products to submit such data.
2. Add the phrase, "EPA Registration No. 7616-67" to your label before you release the product for shipment.
3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

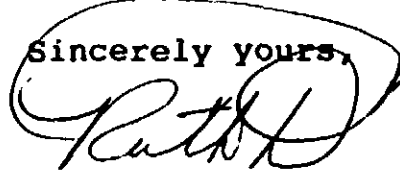

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

ATTACHMENT IS APPLICABLE

SIGNATURE OF APPROVING OFFICIAL	DATE
---------------------------------	------

A stamped copy of the label is enclosed for your records.

Sincerely yours,

A handwritten signature in cursive script, appearing to read "Ruth Douglas", enclosed within a hand-drawn oval.

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS
AND DOMESTIC ANIMALS**

DANGER: HARMFUL IF SWALLOWED HIGHLY CORROSIVE. DO NOT TAKE INTERNALLY. Causes eye and skin damage. Irritating to nose and throat. Avoid breathing dust. Use with adequate ventilation. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Remove and wash contaminated clothing before reuse. Wash thoroughly with soap and water after handling.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Do not discharge into lakes, streams, ponds of public water unless in accordance with NPDES permit. For guidance, contact your regional office of the EPA. Do not contaminate water by cleaning of container and equipment or disposal of wastes.

PHYSICAL AND CHEMICAL HAZARDS: Strong oxidizing agent. Mix only with water. Use clean, dry utensils and equipment. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire and explosion. Contamination with moisture, organic matter or other chemicals may start a chemical reaction with generation of heat, hazardous gases and possible fire and explosion. In case of contamination or decomposition, do not re-seal container. If possible isolate container in open air or well ventilated area. If necessary, flood with large volumes of water.

STATEMENT OF PRACTICAL TREATMENT: For eye contact, flush eyes with large amounts of running water for at least 15 minutes. Hold eyelids apart to ensure rinsing of the entire surface of the eye and lids. If a physician is not available, flush for additional 15 minutes. Get immediate medical attention.

For skin contact, immediately wipe away excess material with dry cloth and remove contaminated clothing and shoes. Under a safety shower, wash affected areas thoroughly with large amounts of water, and soap, if available, for at least 15 minutes. Get immediate medical attention. Discard or decontaminate clothing and shoes.

If inhaled, remove from area to fresh air. If not breathing, clear airway and start mouth-to-mouth artificial respiration or use a bag-mask respirator. Get immediate medical attention. If victim is having trouble breathing, transport to medical care and, if available, give supplemental oxygen.

If swallowed, immediately give several glasses of water. DO NOT induce vomiting. If vomiting occurs, give fluids again. Have physician determine if patient's condition allows induction of vomiting or evacuation of stomach. Do not give anything by mouth to an unconscious or convulsing person. Get immediate medical attention.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

SPA-KEM

BROMI-BUOY™ FLOATING BROMINATOR

Heat stabilized - long lasting
For spa disinfection and
algae prevention
Adjustable - Easy-to-use

ACTIVE INGREDIENTS:

1-Bromo-3-chloro-5-dimethylhydantoin	60.0%
1, 3-dichloro-5-dimethylhydantoin	27.4%
1, 3-dichloro-5-ethyl-5-methylhydantoin	10.6%

INERT INGREDIENTS

Available Bromine	2.0%
Available Chlorine	44.4%

KEEP OUT OF REACH OF CHILDREN

NET WEIGHT .5 LB.

DANGER: Do not mix this product in concentrated form with any other chemicals. Do not add other chemicals to the feeding device when using this product. A violent reaction leading to fire and/or explosion could result.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Bromine tablets are an effective sanitizer and disinfectant of spa and hot tub water. When adjusted to maintain a residual of 2 - 4 ppm bromine in residential spas, these concentrated, slow-dissolving tablets will keep water clean and free of odors. Testing for residual should be performed using a reliable test kit available at Kem Tek retailers.

Spa Start-Up

Fill spa with fresh water. If stain causing metals such as iron and copper are known to be present, treat with a suitable product such as Kem Tek's Spa Kem Stain and Scale Inhibitor. Test for Total Alkalinity and adjust if necessary. Test pH and adjust to 7.2 - 7.6 as needed. Use a product such as Kem Tek's Spa Kem pH Minus to lower pH, or pH Plus to raise pH. Shock or super-chlorinate water using a fast acting chlorinating product such as Kem Tek's Spa Kem Chlorinating Granules or Liquid Shock, using an amount sufficient to produce a 5 ppm chlorine (or 10 ppm bromine) residual. Follow product instructions for proper dosage. Operate circulation/filtration system at least 3 hours daily to maintain clean and clear water. Do not heat water above 104°F.

Preparation, use, and refilling of the Bromi-Buoy™ (Bromine Feeder)

1. To use this floating bromine feeder, cut off the two opposing knobs nearest the cap. Locate and cut off the tab that corresponds to the spa capacity in gallons. Hold the Bromi-Buoy™, neck down, and shake lightly to level contents. Place into spa.
2. Monitor bromine residual using a reliable test kit. Bromine should read 2 - 4 ppm. If necessary, increase residual by cutting off the knob for the next higher spa capacity.
3. The Bromi-Buoy™ fills when empty. Drain all the water and remove safety cap to refill. Use only Kem Tek Spa Kem Brominating Tablets. NEVER MIX WITH ANY OTHER CHEMICALS OR TABLETS. Fill only lower portion of the Bromi-Buoy™, do not fill into neck (DO NOT OVERFILL). When feeder shows signs of brittleness or cracking it should be replaced.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

LAWN FLEA CONTROL: To kill fleas harboring in residential lawns, use this concentrate in a hose-end sprayer. Place required amount of concentrate in sprayer jar (see chart below) and fill with water to the recommended level. Mix well. Attach to sprayer and spray as recommended. For best results, lawn should be mowed a day or two before spraying. Spray using a slow, even

ACCEPTED

sweeping motion, being sure to cover the entire lawn surface where the pets will normally frequent. Spray under ornamentals and trees, but avoid soaking young or flowering plants. Repeat treatments may be necessary at 7 to 14 day intervals.

Kills on contact the Ixodes dammini tick (deer tick), which transmits lime disease. Also kills foraging fire ants upon direct contact. A registered fire ant mound treatment should also be used in conjunction with this product. Keep pets and children out of the treated area until after the spray has dried. Do not spray animals. Dogs, cats, their kennel or bedding area should also be treated with a registered flea control product in conjunction with this application.

AMOUNT OF PRODUCT TO USE / FLUID OUNCES*	AMOUNT OF WATER / TO USE	AREA TO BE TREATED
1 1/3 FLUID OUNCES	3 GALLONS	500 SQ FT (50' X 10')
2 2/3 FLUID OUNCES	6 GALLONS	1000 SQ FT (50' X 20')
4 FLUID OUNCES	9 GALLONS	1500 SQ FT (50' X 30')
5 1/3 FLUID OUNCES	12 GALLONS	2000 SQ FT (50' X 40')
8 FLUID OUNCES	18 GALLONS	3000 SQ FT (50' X 60')
16 FLUID OUNCES	36 GALLONS	6000 SQ FT (50' X 120')

*NOTE: 1 FLUID OUNCE = 2 TABLESPOONSFUL = 6 TEASPOONSFUL

FOR OUTDOOR PESTS: Mix concentrate in a compressed air sprayer or watering can at the rate of two (2) fluid ounces per one (1) gallon of water to control on contact cockroaches, palmetto bugs, ants, crickets, sowbugs, spiders and ticks. Use at the rate of one (1) gallon (diluted spray) per 1000 square feet to outside surfaces of buildings, porches, patios, garages and other areas where these pests have been seen or are found. Do not spray in or near fish ponds or other bodies of water. Do not allow spray to contact ornamental plants or shrubs because of possible injury.

BUILDING PERIMETER TREATMENT: To help prevent infestations of buildings by ants, crickets, spiders, centipedes and sowbugs (pillbugs): Treat a 12-18 inch band of soil or other substrate adjacent to buildings and the building foundation to a height of 2 to 3 feet where these pests are active and may find entrance. Use eight (8) fluid ounces of concentrate per gallon of water and apply as a coarse wet spray at the rate of one (1) gallon per 1000 square feet.

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION**

Harmful if absorbed through skin or inhaled. Causes moderate eye irritation. Harmful if swallowed. Contains petroleum distillate. Do not induce vomiting because of aspiration pneumonia hazard. Avoid breathing vapor or spray mist and contact with skin, eyes or clothing. In case of contact, flush with plenty of water. Obtain medical attention if irritation persists. Remove contaminated clothing and wash before reuse. Wash thoroughly with soap and water after handling. Avoid contamination of food or feed.

Do not spray plants used for food or feed.

PHYSICAL AND CHEMICAL HAZARDS

Do not use or store near heat or open flame.

ENVIRONMENTAL HAZARDS

This pesticide is extremely toxic to fish and aquatic invertebrates. Do not apply directly to water. Drift from treated areas may be hazardous to organisms in adjacent aquatic sites. Do not contaminate water when disposing of equipment washwaters.

STATEMENT OF PRACTICAL TREATMENT

- IF IN EYES:** Flush with plenty of water. Get medical attention if irritation persists.
- IF ON SKIN OR CLOTHING:** Remove contaminated clothing. Wash skin with soap and warm water. Get medical attention if irritation persists.
- IF INHALED:** Remove victim to fresh air. Apply artificial respiration if indicated. Get medical attention.
- IF SWALLOWED:** Call a physician or Poison Control Center. Do not induce vomiting because of aspiration hazard.

STORAGE AND DISPOSAL

DO NOT CONTAMINATE WATER, FOOD OR FEED BY STORAGE OR DISPOSAL.

- Storage:** Store in a cool, dry place. Keep container closed.
- Disposal:** Do not reuse empty container. Wrap container in several layers of newspaper and discard in trash.

BEST AVAILABLE COPY

FOR USE WITH HOSE END SPRAYER CAP

The hose end sprayer cap is calibrated to deliver the correct dilution rate. No mixing - no measuring - no mess. Screw hose into back of sprayer cap. Remove bottle cap (save for storage after use). Secure sprayer cap by turning bottle counter-clockwise. Turn on water supply. TO START FLOW OF INSECTICIDE, place index finger over hole on right side of sprayer cap. Spray evenly and completely over lawns and other infested areas, giving special attention to areas frequented by pets. Hold about three feet above surface, moving at a steady pace to insure consistent, thorough coverage. When treatment is complete, or you wish TO STOP FLOW OF INSECTICIDE for any reason, simply remove finger from hole to break siphon action. TO STORE REMAINING INSECTICIDE, turn off water supply and remove bottle from sprayer unit and hose by turning bottle clockwise. Replace cap on bottle and tighten securely. Unscrew hose from sprayer unit and rinse unit in clear water. Store in cool place.
