

- Kills and Controls All Types of Algae
- Formulated with Water Clarifier
- For Use in All Types of Pools and Filters
- Fast Acting Results in 24 hours
- Treats 32,000 Gallons of Water
- Money Back Guarantee

ACTIVE INGREDIENT:
 *Copper as elemental.....3.5%
 OTHER INGREDIENTS.....96.5%
 TOTAL.....100%

*From copper triethanolamine complex.
 Contains 0.31 lb. elemental copper per gallon.

ACCEPTED
 JAN 11 2006
 Under the Federal Insecticide, Fungicide, and
 Rodenticide, Act as amended, for the
 pesticide, registered under
 EPA Reg. No. 7616-68

Si usted no entiende la etiqueta, busque a alguien para que se la explique a usted en detalle.

PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed. Avoid contact with skin and eyes. Wash thoroughly with soap and water after handling. Do not apply this product in a manner as to directly or through drift expose workers or other persons.

ENVIRONMENTAL HAZARDS: This product is toxic to fish.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

KEM TEK™ Algy Cop does an effective job of controlling green, blue-green and mustard colored algae growths in swimming pools. For black algae problems, the use of KEM TEK™ Black Algaecide is recommended. Follow all precautions, directions and restrictions per their labeling for all pesticide products being used.

1. Adjust pH of pool water to 7.2-7.6. Use KEM TEK™ pH PLUS (Soda Ash) to raise pH and KEM-TEK™ MURIATIC ACID to lower it. Follow the instructions on the label of whichever product is used.
2. Add 1 pound of KEM TEK™ SHOCK QUICK™, or 3 quarts of KEM-TEK™ SWIMMING POOL CHLORINATING LIQUID per 10,000 gallons of pool water to oxidize water soluble wastes. Allow to circulate one hour. (NOTE: Do not enter the pool until chlorine residual drops to 2.0 ppm.)
3. Using an algae brush, brush algae spots prior to product application. Brush daily for the next few days if necessary to promote penetration of product into algae spots to improve effectiveness. Add 10 oz. of KEM TEK™ Algy Cop per 10,000 gallons of pool water. Preferably, dilute the concentrate into one or two gallons of water and apply to the deep end of the pool.
4. Filter continuously for 24 hours. Check available chlorine, if necessary adjust to 3 ppm minimum. Dead algae may be visible as a gray or white water cloudiness. Living algae will have a green, brown, yellow or black color. If algae has color after 24 hours repeat treatment as necessary for removal.
5. Once algae is dead turn off filter system (including timer) allow 18 to 24 hours for dead algae to settle to the bottom of the pool.
6. Brush or vacuum to remove dead algae. Back-wash the filter. Return filter system to normal operation.
7. Add 5 oz. of KEM TEK™ Algy Cop per 10,000 gallons of pool water as a maintenance dose.

TO ESTIMATE POOL CAPACITY

RECTANGULAR POOLS: Length x Width x Average Depth (in feet) x 7.5 = gallons.

ROUND POOLS or OVAL POOLS: Average Diameter (length) x Average Diameter (width) x Average Depth (in feet) x 5.9 = gallons.

STORAGE AND DISPOSAL:

STORAGE: Keep product in tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. DISPOSAL: IF EMPTY: Do not reuse empty container. Place in trash or offer for recycling if available. IF PARTIALLY FILLED: Call your local solid waste agency or 1-800-CLEANUP for disposal instruction. Do not contaminate water, food or feed by storage and disposal. Never place unused product down any indoor or outdoor drain.

FIRST AID

If Swallowed	Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. DO NOT induce vomiting unless told to do so by poison control center or doctor. Do not give anything by mouth to an unconscious person.
If In Eyes	Hold eyes open and flush with plenty of water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor immediately for treatment advice.
If on Skin or Clothing	Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor immediately for treatment advice.

Have the product container or label with you when calling poison control center or doctor, or going for treatment.
