Subject: Label Amendment – Polixetonium Chloride (Busan 77) Registration
Review Interim Decision Risk Mitigation
Product Name: KEM-TEK ALGAECIDE
EPA Registration Number: 7616-73
Received Date: September 14, 2021
Decision Number: 578458

Dear Jacqueline Stewart:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

The Agency, in accordance with the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, has completed reviewing all of the information submitted with your application to support the Registration Review of the above referenced product in connection with the Polixetonium Chloride (Busan 77) Interim Decision, and has concluded that your submission is acceptable.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling and must be used at your next label printing. Pursuant to 40 CFR 156.10(a)(6) you must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 12 months from the date of this letter. After 12 months, you may only distribute or sell this product if it bears this new revised

labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the Agency. See FIFRA section 2(p)(2). If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process, FIFRA section 12(a)(1)(B). Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, please contact Jessie Bailey by phone at 202-566-0605, or via email at bailey.jessica@epa.gov.

Sincerely,

Eric Miederhoff
Chief, Reevaluation Branch
Antimicrobials Division
EPA Office of Pesticide Programs

PRECAUTIONARY STATEMENTS:
Hazards to Humans and Domestic Animals

CAUTION: Causes moderate eye irritation. Harmful if swallowed or absorbed through the skin. Avoid breathing vapors. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

[Add following language for commercial use products:]

All mixers, loaders, applicators and other handlers must wear long sleeved shirt, long pants and waterproof resistant gloves. Follow manufacturer's instructions for cleaning / maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, aquatic invertebrates, and clams.

DISCHARGE DIRECTIONS FOR COMMERCIAL AND RESIDENTIAL POOL, SPA, AND HOT TUB USES

- Before draining a treated pool, spa, or hot tub, contact your local sanitary sewer and storm drain authorities and follow their discharge instructions. Do not discharge treated pool or spa water to any location that flows to a gutter, storm drain or natural water body unless discharge is allowed by state and local authorities.

FIRST AID: Call a poison control center [(1-800-222-1222)] [(1-866-366-5048)] or doctor for treatment advice. Have the product container or label with you when calling poison control center or doctor, or going for treatment. **If in Eyes:** Hold eye open and flush with plenty of water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. **If on Skin or Clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. **If swallowed:** Have person sip a glass of water if able to swallow. DO NOT induce vomiting unless told to do so by poison control center or doctor. Do not give anything by mouth to an unconscious person. **If inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration preferably mouth-to-mouth, if possible.

Value

Use Weekly for Prevention

[†]Pool may be used in 15 minutes after adding this product only when chlorine level is at or below 3 ppm.

[The presence of algae in swimming pools is objectionable and can be difficult to remove. KEM TEK™ ALGAECIDE helps prevent the growth of chlorine-resistant algae, [(such as mustard and black algae)]. It also acts as an added defense against algae due to low chlorination periods. Once started, algae greatly increases chlorine demand and the associated increased cost.]

[Information in brackets[] is optional or instructional; italics in brackets indicate instructions not part of labeling.]

DIRECTIONS FOR USE:

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

[Use one or more of the following sets of directions]

Freshly filled And/Or Algae-Free Swimming Pools: Wear waterproof gloves. Add 8 ounces of KEM TEK™ ALGAECIDE per 10,000 gallons [of] pool water. Add 2 to 4 ounces (per 10,000 gallons) weekly as a maintenance dose to prevent algae growth through the swimming season.

Visible Algae Growth: Super-chlorinate with a fast-acting, [unstabilized] chlorinating product (such as Shock Quick™) to a chlorine reading of 5 ppm. Do not use the pool until the chlorine residual has dropped to 3 ppm. Remove all debris by vacuuming or sweeping and filtering. In order to aid in the removal of the fine particles resulting from the affected algae, use KEM TEK™ ULTRA CLARIFIER. Wear waterproof gloves. Add an initial dose of 16 ounces of KEM TEK™ ALGAECIDE per 10,000 gallons of water to rid the water of the remaining chlorine-resistant algae. Thereafter, add 2 to 4 ounces (per 10,000 gallons) weekly during swimming season to prevent regrowth of algae.

NOTE: In order to ensure maximum effectiveness of KEM TEK™ ALGAECIDE (and all other swimming pool chemicals), always maintain pH at 7.2 to 7.6 and a free-chlorine residual of 1 to 2 ppm. Measure by using a reliable test kit.

[Reader's Note: Throughout this label, product names for other similar products (i.e., pH adjusters, stabilizers, chlorinators etc.) may be substituted as appropriate. All oz. may be expressed as fl. oz. or oz.]
Other appropriate ounce products and corresponding gallons of water treated may be substituted on label.

[Residential use products:]

STORAGE AND DISPOSAL:

STORAGE: Keep this product dry in a tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. **PESTICIDE DISPOSAL & CONTAINER HANDLING:** Nonrefillable container. Do not reuse or refill this container. **IF EMPTY:** Place in trash [collection] or offer for recycling if available. **IF PARTLY FILLED:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

[The following language is only applicable to commercial use products:]

STORAGE AND DISPOSAL:

Do not contaminate water, food, or feed by storage or disposal.

STORAGE: Store in a cool dry area, away from direct sunlight and heat to avoid deterioration. In case of spill, flood area with large quantities of water.

PESTICIDE DISPOSAL: Pesticide wastes may be hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill this container. Offer for recycling if available."
